

## 'Union Now' Author Speaks Next Monday

Clarence Streit, foreign correspondent, lecturer, and author of "Union Now" and "Union Now with Britain," will speak to the assembled student body in Gerlinger at 11 a.m. Monday, October 13.

Mr. Streit's original volume was published in 1939 and was given the same title as the movement he was fostering, Union Now. This book was responsible for one of the most extraordinary developments of public support of a political idea in recent times. In brief, the author proposes that the democracies of the world unite to form a common government for their people, organized on the broad lines of the American constitution.

### Columnist Lauds

"I hold it to be the most important book for international democracy written in this generation," recently wrote Columnist Dorothy Thompson.

The membership association, Federal Union, Inc., was formed in July, 1939, to further the basic Union Now proposal and to enable individual supporters to make their influence felt through a permanent nation-wide organization. It maintains in Washington, D. C., a national committee and council of advisers, which is composed of many leaders of public opinion in various fields.

### Wide Organization

Activities include the organization of local chapters from coast to coast; press and radio publicity; and maintenance of a speakers' bureau, which is both a clearing center for volunteer speakers and a professional booking agency.

The national office also publishes pamphlets, leaflets and other popular literature for distribution by mail or at public meetings and distributes the Federal Union World, a monthly magazine giving news of the Federal Union movement in all countries.

## Libe to Show Sweetser Gift

A gift of 337 water color paintings of Oregon plants and wild flowers has just been received by the University of Oregon from Mrs. A. R. Sweetser, it was announced today by President Donald M. Erb. Formal acceptance of the gift will be an item of business at the next meeting of the state board of higher education, October 28.

Mrs. Sweetser painted the pictures during the many years she traveled over the state with her husband, the late Professor A. R. Sweetser, who was on the faculty of the botany and biology departments of the University from 1902 until his retirement in 1931.

The paintings will be on permanent exhibit in the display cases of the main circulation room and will be changed constantly to show the flowers during their blooming season.

The whole collection will be available for study in the room which will house the gift.

## Kunz Appointed To Exam Board

Dr. A. H. Kunz, associate professor of chemistry, and acting head of that department since the death of Dean Orin F. Stafford, was nominated Thursday as a member of the basic science examining committee. The vacancy in the committee was created by the death of Dean Stafford.

The appointment is subject to the approval of the state board of higher education, and has the concurrence of Chancellor Frederick M. Hunter.

Function of the basic science examining committee is to examine persons wishing to take professional examinations in the healing arts. Law makes it necessary for such persons to be examined by this committee first.

Dr. Charles D. Byrne, secretary of the state board of higher education, made the appointment.

## Frosh Fracas Settled Today

Whether or not nominations made at a freshman nominating assembly October 2 are valid will be known by noon today, when the ASUO judiciary committee releases a decision, the result of a meeting Thursday afternoon.

The committee was asked to review the facts on the meeting, with an eye to determining whether or not adequate notice of time and place of the meeting had been published. Several editions of the Emerald, prior to the assembly, had reported that the meeting was scheduled for the music building. Late Thursday afternoon, however, ASUO President Lou Torgeson, in charge of the assembly, discovered that the music auditorium was not available.

Torgeson shifted the meeting to Villard assembly, and had all living organizations contacted by telephone. Men were posted in the music building to refer persons reporting there to Villard for the meeting.

Some organizations, however, subsequently claimed that they had not been contacted. The constitution, adopted by the class September 25, provides that notice of the time and place of class meetings shall be published in the Emerald a week before the meeting.

The committee met Thursday afternoon to consider the facts surrounding the case, but announced no decision, in accordance with their policy of withholding information until a written report of the decision is made. This policy is followed regularly except at times when the decision is of immediate importance, such as the committee's ruling the first ASUO elections illegal last May.

## Society Plans Field Trip

The Natural History society has planned a field trip for Sunday afternoon to study fresh water life. Members will meet at the east end of the Springfield bridge at 2:30.

It is advised that those intending to participate in wading for specimens come equipped with rubber boots and small strainers.

## Where's Ripley? Frosh Likes War

Always eager to scatter a creepy word, the health service has a bit of encouragement today for another service unit, the military.

The nurses state that they found yesterday that not every fellow enrolls in ROTC because it is required. With the customary stream of evasive males which floods the dispensary on "war" days for excuses came a unique individual Thursday. The attendant filled out an excuse for him since his foot was obviously in no condition to plod the military path. "Oh," said the dough-boy when he saw how easily it was coming, "but I don't want an excuse. I want to drill. Well, I'll take it along, and if they don't want me, I'll use it." So the nurses conclude that at least Berkeley Snow likes his military training.

Hospital rolls include: Grace Henry, Alevena Marshall, Barbara Essex, Lulu Pali, Norma Dare Trevarrow, John O'Brien, Oliver Stendal, Willis Elliott, Jean Dutton. Don Stephens was checked off the list Thursday night.

Dr. Egbert S. Wengert of the University of Wisconsin has been appointed to fill the Carter Glass chair of government at Sweet Briar college.

## Campus Calendar

WAA elections will be held today from 11 a.m. to 12 noon and 12:30 p.m. to 3 p.m. at the east entrance of the library.

Westminster house will hold its regular open house tonight after the Grace Moore concert. All students are welcome.

## Engineer Graduates Offered Commissions

The United States navy is granting commissions as ensigns in the naval reserve to qualified graduates of chemical, sanitary, and mechanical engineering courses who can serve as industrial hygienists, Captain H. A. Garrison, United States navy medical officer of the thirteenth naval district, has announced.

Industrial hygienists formerly were commissioned only after two years of practical experience. This restriction has been removed. Ensigns commissioned to serve as industrial hygienists will be sent to the Harvard school of industrial hygiene for a four months' course of instruction which will include orientation in navy customs and regulations.

## WHAT ARE YOU DOING WITH YOUR LAUNDRY THIS YEAR?...

Courtesy of Dartmouth "Jack-o-Lantern"

A better method is to send it home regularly by RAILWAY EXPRESS—and have it returned the same way.

Our service is fast, sure—and convenient. Economical rates include pick-up and delivery at no extra charge within our regular vehicle limits in all cities and principal towns. Your choice of prepaid or collect charges.

Just as convenient too, for 'most any shipment: Baggage, gifts, cake or a pet elephant.

## for utmost service to the Nation

In these critical times, communications play a vital part in defense. Here is how the Bell System is organized to meet its great responsibility.

American Telephone and Telegraph Company coordinates all system activities, advises on telephone operation, searches for improved methods.

24 associated operating companies provide telephone service in their respective territories.

Long Lines Department of A. T. & T. interconnects the 24 operating companies, handles Long Distance and overseas service.

Bell Telephone Laboratories carries on scientific research and development for the system.

Western Electric is the manufacturing, purchasing and distributing unit.

Highly trained through many years of working together, these Bell System companies provide a nation-wide, unified service. Never have the benefits of this system been so clear as today when the country is under pressure.
