

Pure Science School Sought

Possibilities that a school of "pure science" will be established at the University will be considered at the October 28 meeting of the Oregon state board of higher education, University President Donald M. Erb revealed Thursday.

At the present time the University is allowed to give lower-division and service courses in the natural sciences, but is not allowed to give degrees in them. This system is in accordance with the state system policy of not duplicating major work at the University and the state college.

In reports arranged for the board, it is asserted that University administration believes that its staff is large enough to warrant the granting of degrees in botany, chemistry, geology, mathematics, physics, and zoology.

Oregon State is now allowed the school of science and professional schools derived from it, while the University is allowed the colleges of liberal arts, social sciences, and professional schools derived from them.

NOTHING PIED ABOUT THIS TYPE

Dorothy Havens, the queen of all University queens, was chosen "The Perfect Type" by members of Sigma Delta Chi, national professional journalistic fraternity, last week. Only women who had reigned as queens of some previous event were considered. (Courtesy Eugene News.)

Campus Hospital Found by Frosh

Going the rounds with the infirmary nurses today is an original freshman story. It's about the freshman who was delegated to deliver two special delivery letters to his roommate, Arthur Hosfeldt, who was confined to the University hospital.

He hustled into the downstairs dispensary Thursday morning asking where Arthur was. The reply being "In the hospital" he hurried off. Before the hour was up the boy burst in breathlessly. "They said he isn't there. Where'd I go? Why, Sacred Heart hospital, of course. They called the Eugene hospital, too; he isn't there either." Nurses say that now at least one freshman knows that Oregon has a hospital of its own.

Arthur Hosfeldt was released Thursday afternoon. Those holding down the fort are: Leone Spaulding, Grace Henry, Betty Leist, Mardell Webb, Arliss Boone, Virginia Tyrell, Leon Olmstead, Fred Treadgold, Bill Maltman, Jake Prince, Clifford Anet, William Wilson, and Richard Rule.

Daly Fund Aids Twelve

Twelve students from Lakeview are attending the University as beneficiaries of the Bernard Daly educational fund, according to an announcement by Earl M. Pallet, registrar.

The 12 students are: Betty Allen, Agnes Barry, Lois Clause, Genevieve Graves, Eva Griffin, Bernice Gunther, Dorothy Johnson, Lucille Johnson, Patricia Lawson, Norma Ogle, Lilly Peterson, and William Strieby.

Amateur Dramatists To Present 'Skylark'

Eugene's Very Little theater will give "Skylark" by Samson Raphaelson during the first week of November as its first offering of the current season.

The lead, which was made famous by Gertrude Lawrence, will be taken by Adele Griffith. University students among the cast are Jerry Lakefish and Bill Wood.

The play will be directed by Ethan Newman who was formerly prominent in the University theater.

UO Students on Air

Two University music students will be featured Monday evening over station KOAC. At 8 p.m. Ray Leonard, baritone, will sing "Border Ballad," Cowan; "Spirit Flower," Tipton; "My Homeland," Edwards; "Go Down Moses," Burleigh; "Love's Old Sweet Song," Bury; "Into the Night," Edwards. Jim Gibson, violinist, will play a group of three numbers at 8:40.

Program To Outline Extension Courses

The first in a new series of broadcasts to be presented by the general extension division will be on the air at 8:30 tonight over KOAC. An outline of work being done in the general extension field, the students benefited by courses in correspondence work, and what correspondence studies can do to aid defense will be the subject of a round table discussion.

Mr. Edward Vietti, instructor in secretarial science at Oregon State college, will outline his correspondence course in stenography which will be followed by a discussion.

Farm accounting, another correspondence study, will be discussed by a representative from the school of agriculture at Oregon State college.

Mr. J. M. Morris is in charge of the program. Participating in the broadcast will be Miss Mabelle Hair, of the general extension division, and Mr. Vietti.

Nominating Procedure Outlined for Freshmen

Procedure freshmen should follow in clearing their scholastic eligibility and declaration of intention to run before freshman nominating assemblies Tuesday night, was outlined last night by Jim Frost, ASUO first vice-president.

Scholastic eligibility should be ascertained by obtaining a written statement from the dean of men or dean of women.

The declaration of intention to run is a personal statement signed by the candidate saying that he plans to run and telling the office he desires.

These two statements must be submitted together to Mary Graham, secretary of the educational activities department, in her office in McArthur court. No other person is qualified to receive them. Deadline for submitting these to Miss Graham is 5 p.m. Tuesday. Students who do not submit them to Miss Graham, however, may turn them in at the assembly before 7:30 p.m. in the music auditorium.

Article V of the class constitution on nominations and elections provides for these affida-

vits. Section I, Clause I on nominations reads:

Nominations shall be made at a nominating assembly called by the A.S.U.O. president who shall call and conduct a meeting, at least 7 days before the class election as provided in Clause I, Section II, of this article. Certification of eligibility and declaration of intention to run must be submitted to the president of the A.S.U.O. or before the nomination assembly.

Dr. Donald Super, professor of educational psychology at Clark university, disputes the theory that everyone should have a hob-
