"Steedie" Likes Rain; Mourns Straight Locks

By JANET WAGSTAFF

Who would be brought to mind by mention of the name Miss Perfume Magnolia Barn? Certainly not Elizabeth Steed. Yet that is how "Steedie" says her full name sounds. And anyone who calls her Betty is automatically dinged, so it is Steedie, president of AWS, who is the Coed of the Week.

Another title which she doesn't like is "activity woman." "But I like the activities," she said.

Her list of past and present activities bears this out; it includes Kwama, Phi Theta Upsilon, of which she was president, and AWS of which she has been sergeant of arms, treasurer, and now president.

Likes Oregon

This blue-eyed coed, though Philadelphia born, claims, "I'm an Oregonian, rain and all, even

web-feet. But I don't have curly hair, which makes it inconvenient sometimes."

Steedie would rather swim than anything. She likes long distance swimming most because she says she is not very fast. During the last four summers she has been a life guard in a Girl Reserve camp.

"After graduation I'd really

Planning for the forthcoming "Coed Capers" is AWS President Miss Elizabeth Steed, featured as Coed-of-the-week.

like to go to a school where they take dumb things like me, as green as horns, and train them," Elizabeth, a social science major, said. "I'd like to go into some sort of personnel work later."

Coed Capers

Enthusiastic about everything, the head of Oregon's women waxed eloquent when coming AWS activities were mentioned. "Coed Capers is the big thing now. It's a revival from several years back, and I just can't see how it can be anything but a success. One of the biggest jobs is getting 50 senior cops because we hear the boys are planning to crash. We muscle girls are going to don lettermen's sweaters and bodily oust any males, even though they wear dresses."

With the record of past successes under her capable hands, "Steedie's" forthcoming Capers seems to have a rosy future.
