## Average Artist Studying More

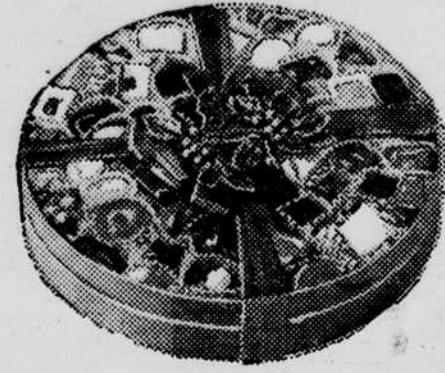

Architecture and allied arts students are evidently studying harder this year than they did in 1940-41, according to Mabel A. Houck, librarian of the architecture and allied arts school library.

Although exact figures are not available at present there is no doubt that there is a large increase over last year's circulation.

There are approximately 3000 books and bound magazines in the art school's collection. Last year the total circulation of these was 3213 books, 593 magazines, 296 pamphlets, 1584 pictures, and 3087 slides.

Last year's circulation of books was far below normal for the art library. Figures from 1939-40 are more representative of most year's circulation, Mrs. Houck said.
