

## Defense Desk Open All Week

The campus defense registration desk in Johnson hall will be open during the rest of the week, and Monday and Tuesday of next week, according to Karl W. Onthank, dean of personnel administration, Tuesday.

"The sooner students fill out these blanks," said Dean Onthank, "the better our defense organization will be. As soon as we get a number registered, along with their special qualifications for defense work, we will begin to assign them to their districts or type of emergency work."

This special registration is being made especially for students who have a particular skill or extensive training in certain types of work needed in the defense effort. It is being organized independently of the volunteer observers who will man the new observation post atop the library.

A certain source has rumored that bad weather has been due to the fact that the Japanese shut off the "current."

## At Second Glance

(Continued from page two) and one week later will come the Military Ball. Jumping ahead to March 7, there'll be the annual Winter Wonderland, to chill yo' chillun. Just what they're going to do about desserts with this cold spell is beyond us . . . probably having firesides around heaters, or watching the chocolate melt on the ice cream.

Also, in about three weeks, there will begin the cropping of house dances, intermixed with campus affairs such as the Gleemen's concert and Sir Thomas Beecham. Then, with evidently more girls than boys back, this Whitley paradise will boost the premium offered on house dances. **SHORT STORIETTE:**
