## Civilian Pilot Future Topic of Today's Meet

Explanation of the probable future of the local civilian pilot training course will be the main order of business at a meeting of all future CPT students, which has been called for this morning by James C. Stovall, coordinator. Chapman hall lecture room is the place set for the 11 o'clock meeting.

#### Program Set

"As things stand now we will have our next program which is scheduled to begin February 1, although there may have to be some arrangement whereby students get their ground school instruction here, during the school term, and then go to eastern Oregon next summer to do their actual flying," Stovall clarified.

He pointed out that this way student planes would not interfere with western Oregon plane interception work. As another possible plan he brought forth that flying may be permitted in certain restricted areas around the Eugene airport. If the flying
