Decree Bans 'Big Names' At UO Hops

Big name bands will be banned from the University of Oregon campus "for the duration."

This was decided in the form of a motion at the student affairs committee meeting Tuesday, announced Karl W. Onthank, chairman. The motion, made by Lou Torgeson, ASUO president, followed suggestions of the University defense council and the student defense committee.

According to Dean Onthank, "The concensus of opinion seemed to be that the students' social life should remain substantially normal, but with an economy of effort and energy spent in preparation. The motion as passed stated that it should be the policy of the committee in its consideration of student social functions:

1. "To stress economy of expenditures.

2. "To stress economy of effort.

3. "To stress simple informal dances in small groups rather than large dances, and to eliminate big name bands."

It should be understood, said Dean Onthank, that the interpretation of this declaration of policy will occur as requests for scheduling dances come to the dean of women's office.

The members of the committee, from many discussions with students, believe that the students themselves, although feeling in need of continuing the normal opportunities for social recreation, recognize the need for economy of funds and for giving time to studies and defense activities, and will welcome adjustment of a social program to meet these needs.

Members of the students affairs committee are:

Karl W. Onthank, dean of personnel administration, chairman of the committee; Virgil D. Earl, dean of men; Mrs. Hazel P. Schwering, dean of women; Miss Mabel Wood, head of the home **≜**conomics department; Charles M. Hulten, associate professor of journalism; Lou Torgeson, ASUO president, and Elizabeth Steed, AWS president.

Emerald Business Staff Appointments Available

An opportunity for Oregon students to work on the business and advertising staffs of the Emerald is now available, Fred O. May, business manager, said last night in announcing a meeting of interested persons at 7:30 tonight in 105 journalism.

In describing opportunities for work, May called the Emerald "an ideal training ground for advertising and pro-

motional work. Not the least of its values is the opportunity it gives students to make valuable contacts, both on the campus and in downtown Eugene," he said.

Available Jobs

Most jobs are available in layout, office, and local advertising work. Advertising professors have recommended local advertising work on the Emerald as excellent preparation for their courses, Betty Jane Biggs, newlyappointed advertising manager, said. Students working in this field get a great deal of experience in actual selling, she advised.

Experience in shorthand, typing, and filing is available in the. office work field.

Layout Work

Layout work is available to persons with experience in the field, May said, suggesting that persons without experience here, start in the local advertising field.

Positions are also open for a circulation and classified advertising managers, May said. Lars Bob Gilson, who has been circulation manager, is now employed in that capacity by the Eugene Daily News, May reported, offering this as proof that "it pays to work on the Emerald."
