University 'CO-OP' Store

R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina

CAMEL IS THE CIGARETTE FOR ME. THEY'RE GRAND-TASTING— AND THEY'RE Milder IN EVERY WAY

The smoke of slower-burning Camels contains

# 28% LESS NICOTINE

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself!

YES, Camels are milder—milder in every way. When you light up a Camel, you have the scientific assurance of less nicotine in the smoke.

And no matter how much you smoke, you'll find Camels—with their full, round flavor—never wear out their welcome. Camels really taste good. From the first puff through the last puff in the pack, Camels give you smoking pleasure at its flavorful best with the mildness that lets you enjoy it.

They're the campus favorite (according to country-wide surveys)... they'll be your favorite when you try them.
