Four Termers May Prepare For War Duty

By PEGGY OVERLAND

Special emphasis will be placed this year during summer session, on courses that will enable students to equip themselves for more effective service to the nation in time of war, either with the armed forces or in civilian capacities.

More than the usual number of lower-division courses will be offered, so that freshmen and sophomores may accelerate their school year and be better qualified for specialized military and naval services when they are called to the colors.

Med Courses

In view of the fact that nearly all medical schools are now operating on a year-round plan, courses will be arranged to enable premedical students to do one term's work during the summer and thus shorten the time required for preparation for admission to medical schools. This applies also to students wishing to enter nursing school.

The summer session for this year will be the thirty-eighth to hold on the campus. Students will register for the first session on Saturday, June 13. Classes will begin Monday morning, June 15, in accordance with a schedule that will be found in the summer catalogue which will be issued to those interested in the session. The second session will hold registration on Saturday, July 18.

Details

For convenience of students, all the details of registration will be completed in Friendly hall. Registration for each session will beain at 8 o'clock in the morning and continue until 4 o'clock in the afternoon.

Detailed instructions concerning the simple enrollment procedure may be secured at Friendly hall. Students not able to enroll on registration day should call at the summer session office, 3 Oregon hall.

Room, Board

During the two sessions, board and room for both men and women students will be available in the six residence halls of the John Straub Memorial building. Applications for reservation of dormitory rooms should be sent to the director of dormitories, be-

Labor, he said, should not be put in an economic straight-jacket for the duration of the war or have its wages "frozen" without redress to some such agency as the WPB. However, neither should wages, prices, or profits be allowed to continue to rise in an inflationary spirit.

Statement

"Let us not forget," said Morse, "that Germany in 1918 and France in 1940 cracked first on the home front." He argued that it did not follow that because men in the armed forces receive (Please turn to page eight)
