

Miss LaDuke Will Present Piano Recital

Leone LaDuke, junior in music and holder of the Phi Beta music scholarship for three successive years, will be presented in her junior piano recital this evening at 8 in the music school auditorium.

Assisting Miss LaDuke will be Marie Rogndahl, soprano, and Emery Hodson, pianist.

Played Often

Miss LaDuke is a pupil of George Hopkins, professor of music. She attended Washington high school in Portland. A member of Phi Beta and Mu Phi Epsilon, she has played often on KOAC programs and in concerts.

Miss Rogndahl attended Franklin high school in Portland and is a freshman in music.

The program includes: "Prelude and Fugue in B minor," by Johann Sebastian Bach. Unusual in counterpoint and polyphonic architectural design, this work is from the "Well Tempered Clavichord," Bach's book of preludes and fugues written on every key of the temperate scale.

"Sonata, opus 31, number 2," by Beethoven, is also to be played by Miss LaDuke.

Will Sing

Miss Rogndahl will sing "Depuis le jour," from "Louise," by Georges Charpentier, that opera which is an impressionistic study of life in Montmartre. This aria was first introduced in the United States in 1907 by Mary Garden.

Miss LaDuke will then play three of Chopin's brief works: "Ballade in F major," "Mazurka in F sharp minor," and "Impromptu."

The well-known "Caro Nome" from Verdi's "Rigoletto," a melody which is one of the most exciting of coloratura arias, will be performed by Miss Rogndahl.

"Un Sospiro," by Liszt, known for its orchestral power; "Minute," by George Hopkins, professor of music at the University, and "Rhapsody in F sharp minor," by Dohnanyi, a Hungarian composer, winner of the Vienna prize at one time, complete the program.

F. B. Price, UO Grad Home On Furlough

Frank B. Price, University graduate, is home on furlough from his army post in Louisiana and is spending this week with his parents in Eugene.

Price, who was a former assistant cashier at the Bank of Oregon at Springfield, is with the aviation ordnance department and is stationed at Harding field, Baton Rouge, Louisiana. He was first sent to the Portland air base, then to an ordnance specialist school at Aberdeen proving grounds, Maryland. When he completed his schooling he rejoined his company in Louisiana.

Price arrived in Eugene Monday for a week's stay, after crossing the continent by airplane.

His subject will be "Economic Aspects of Post War Planning."

Members of 150 clubs are expected to participate in the forum. Dr. Bernard Noble of Reed college will speak at the afternoon session.

V-7 Roster To Close Soon

Enrollment in class V-7 of the United States Naval Reserve will soon be closed, according to an announcement today by Commander A. J. Byrholdt, director of naval officer procurement for the Thirteenth Naval district.

"Enrollment in this class of the Naval Reserve will close approximately May 1," Commander Byrholdt said.

Class V-7 is open to all college graduates between the ages of 19 and 28 who have had at least one year of mathematics. Juniors and seniors in college will also be enrolled and permitted to continue their college courses providing they will receive their degrees by July, 1943. Upon completion of their college courses they will be given four months Navy Midshipman training leading to commissions as deck or engineering officers in the Naval Reserve.

Those who are physically and educationally qualified will receive training, at government expense, that will prove invaluable to them in whatever profession they may follow after the war.

"This specialized training is of a type that cannot be obtained elsewhere," Commander Byrholdt said, "and is superior to that which has ever before been offered."

The office of naval officer procurement is located at 117 Marion street, Seattle, Wash., where all interested college men may secure additional information and applications. Commander Byrholdt stressed the urgent need of the Navy for qualified men capable of receiving officer training and urged all those interested to complete their enrollment at the earliest possible date.
