

# Social Fling Homecoming Fires Lit For Alum Weekend

By LOIS HULSER  
Society Editor

Plans for Homecoming are well near completion since the women have finally made up their minds what to wear to the big dance. Short silks is the latest and irrevocable word on fashions for the Dorsey hop. Dean Schwering has granted the second late permission of the term with one o'clock as the closing hour. There will be no check-outs. Students having left the dance will not be admitted again.

## AWS Notes

Just to make it unanimous, it's still definitely a "woman's world," and the "swing shifts to women." Is everybody baring their teeth like the Ipana ads? Are you bursting with happiness? . . . Has any public-spirited and kindly indi-vid you-all" seen an irresistible red jeep hat dangling anywhere around this campus . . .

Probably somewhere between the ADPI house, the Side, and the Pi Phi house? (This item really belongs to our friends, the ad staff, but Janet "Pewee" Ross, chairman of C. Capers, feels that it is of sufficiently sufficient importance to make a direct appeal to the public). Superstitious "Pewee" is quite perturbed over her loss, because it brings her "good luck for C. Capers." Well, has anyone seen a red jeep hat? It's right showy!

. . . Also "right showy" is a radio program propagandizing C. Capers. (or should it be Coed C.'s) Tune in tonight . . . KORE . . . sometime between 8 and 9 to hear lots of dulcet voices, i.e., the Pi Phi trio singing the Capers song, and Marge Dibble, Florence Cooley, and the aforementioned muchly-publicized chair-

man of "C. C's" round-tabling.

. . . Prospective overseers of lost and found articles and auctioneers should turn in petitions for chairmanship of the AWS auction at the AWS offices in the Igloo or the Theta domicile no later than Monday, November 9. Yes, enough things have been lost now, almost.

. . . Confused Phi Thetas and Kwamas are still wondering about the Frosh Mix. It's been postponed, but they're hoping for a November 16 spot.

INCIDENTALLY DEPARTMENT: Aren't you sorry for the unhappy people who didn't get to the Hoyt Franchere assembly?

Dr. Neil E. Gordon of Central college, Fayette, Mo., has been appointed head of the chemistry department at Wayne university to fill the vacancy caused by retirement of Frederick C. Irwin.

## Good Taste Misplaced

Memo from the Have You Noticed department, Bureau of Bull-Sessions:

The law school students no longer launch messerschmidts (matches to you) at the passing girls. . . In fact, the potential lawyers seem to have hibernated quietly into their books. . .

Salt is no longer tenderly poured into the sugar by whimsical souls who enjoy watching unsuspecting sugar-users make faces over their coffee. . .

Priorities seem to have eliminated the usual crop of blondes. . . What in the world does war industry use peroxide for????

Lights placed in strategic positions no longer bother people who are going steady. . .

There is less chance of being killed on Thirteenth by passing cars between classes. Reason? Gas and tire rationing, my pet . . . You don't REALLY think anybody WANTS to walk, do you??

Don't you wish you had all those wrecked bobby pins you so blissfully relegated to the wastepaper basket? Now, a good firm set of molars is really necessary to ease the sprung pins back into some sort of shape. . .

Didn't it used to be fun to have Sunday breakfast at a luxuriously late hour in the morning in the Side? Well, that's one way to disperse a mass meeting—close the hall!!

We might as well shed a tear over the passing of the campus post-office where it was so simple to mail the laundry. Everybody else has, and who are we to go about being different. . .

All the nice, colorful characters of a former age have departed and there don't seem to be any successors to Tiger Payne, Buck Buchwach, Jack Bryant, Helen Angell, Pat Taylor, Lillian Davis, and others of their ilk. . .

this year pretty soon there won't be anyone left who knows how to build a canoe fete float. . . No more painting the O, no more tugs of war across the mill-race, no more bonfires, no more walkouts, no more elegant decor-

ations for the dances, no more food at desserts, a scarcity of blind dates, ditto of coffee and cokes. . . What IS the university coming to??? D'you suppose people could be getting an education . . . out of BOOKS!!!
