# Bright Events Whirl Into Social Spotlight

By LOIS HULSER, Society Editor

Everything's happening this weekend — firesides, radio dances, veddy, veddy formal and ski dances. There are dances and then there are dinner dances; there are single house dances and then there is the Triad. Let's tour the town and see what the next house has planned.

We could start down by the Kappa Sig house where there's a big fireside, down to the big white Phi Kappa Psi house you will find a radio dance, and over to University house to dance in a formal French atmosphere.

### Big Secrets

We'll find the Phi Psi dancing to an orchestra, name unknown. The theme is undisclosed too so your guess is as good as mine. The Alpha Xi Delta house will be "Blue Heaven." Farther up on Alder we'll stop at the Chi Omega radio dance and certainly stop at Canard club where they are honoring their house characters. (If you've talked to Roy Nelson or are one of his five readers you know what I mean.)

Delta Gamma's Valentine dance is a bright spot on sorority row. The Alpha Chi theme is secret but Kern Spaugh is playing for their formal. As long as we're a look at the DU dinner dance at the Osburn.

### Inter-Dorm

Saturday is another big eve. Dancing at John Straub (the interdorm dance) will be formal and George Carey, maestro. If we drop into Highland house we'll be in a formal fairyland. Kappa Kappa Gamma is another formal and the theme, another surprise. They will be wearing short silks at "Hogan's Inn," Pi Kappa Alpha.

Down by the old millrace Gamma Phi's formal is "Mythical Night." Alpha Delta Pi is having its second annual ski dance. (Please park your boots at the door). The annual (well almost

annual Triad) is slated for Saturday eve also.

Pins and crests of Sigma Chi, Beta Theta Pi and Phi Delta Theta will decorate Gerlinger. The orchestra is Dick Davis from Portland. Tables will be placed around the floor for the night club effect. Drapes will add to the formal tone. Yes, it's going to be quite a weekend which should take care of all of Beckwith's troubles.

Dancing dates last night were Phi Gamma Delta-Kappa Alpha Theta; Alpha Tau Omega-Kappa Kappa Gamma; Kappa Sigma-Pi Beta Phi; Sigma Kappa-preference; Canard club-Susan Campbell; Alpha Phi-Phi Kappa Psi; Phi Sigma Kappa-preference Hendricks hall-Pi Kappa Alpha; Alpha Omicron Pi-Sigma Alpha Epsilon; Delta Gamma-Sigma Alpha Mu; Alpha Delta Pi-Sigma Chi; Theta Chi-Gamma Phi; Alpha Chi Omega-Beta Theta Pi; Chi Omega-preference; Alpha Gamma Delta-Sigma Phi Epsilon; and Delta Delta Delta-Chi Psi.

Sunday afternoon Zeta Tau Alphas are honoring their house-mother, Mrs. Mable Ridell at a formal tea at the chapter house.

### Ad Lib

(Continued from page two) days . . . Which reminds me to close with the note that, at last report, Yank Lausen's work was making like the great Goodman brass stuff of olden days. Hope he keeps it up.

## Good Taste Misplaced

By MARY ANN CAMPBELL

Don't be silly, how could the ground-hog POSSIBLY have seen his shadow in all that fog bank on the 2nd. Let me explain, you gotta have the SUN to have a SHADOW . . . Remember, the sun?

\* \* \*

Overheard on the bus: There were three men, one from Oregon, one from Arizona, and one from Alaska . . . The man from Arizona said, "I wouldn't like to live in Alaska, it's too cold."

So the man from Alaska, always willing to stand up for his native habitat, remarked, "Oh, you don't mind it, it's a dry cold."

And then the man from Alaska observed, "Well, I wouldn't like to live in Arizona, it's too hot."

Said the man from Arizona, "Really, it's not bad at all. It's a dry heat and doesn't bother you."

Then they asked the man from Oregon what state he represented, because he hadn't said a word all this time. When he told them that he was from Oregon, they said, "Oh, we wouldn't like to live in Oregon, it's too wet, there!"

And the man from Oregon answered them, "You don't mind the rain, it's a dry wet."

Tell that one to the raincoat manufacturers. . . .

The grapevine has it that there are STILL people in this school who have only recently acquired a library card, and there are others who have never used the ones from last term . . . If someone interested in research would care to make a small survey and publish what courses these happy souls are taking, there would be lots of people around here mighty interested.

## Coeds Shine In Charming Sunday Garb

With mid-terms past, and final week rearing its ugly head in the not-too-distant future, many Oregon coeds are varying the usual Christmas-Easter routine, and take time out to appear weekly at church.

Aside from the moral good obtained, this enables the University's feminine gender to observe what's new in the clothes line. Many striking outfits have been noted lately . . . Beverly Cameron looks smart in a two-piece black crepe dress trimmed on the pockets and shoulder with white lace. With it, she wears black accessories . . . Kay Hitchcock wears a red crepe dress, trimmed on round collar and sleeves with

cover . . . Pat Goss also chooses a red and black combination, in the form of a peg-top black dress, with red panels set in the bodice . . . Betty Lee Barnes' black dress utilizes two materials effectively—the top is black lace, gathered to a full black crepe skirt. The accessories include a black cat hat with a heavy black veil red velvet. Worn with a black

## Sucker!

You think I'd take him back again,  
Forgive the tears I cried,  
Forget the grief and twisting pain,  
The thousand deaths I died?  
I flew too near the candle once  
And found my wings were burned,  
Then should I offer, like a dunce,  
The true love that he spurned?  
Can I forgive his sharp disdain,  
And do you think I should?  
You think I'd take him back again?  
You bet your life I would!

By Betsy Wootton

## No More Cars

(Continued from page six)

Enviously we think of the days of the horse and buggy, and contemplate the possibility of keeping a horse in the linen closet, and feeding it our lumpy mattress stuffing—and that ain't hay. But that idea fades in the light of more brilliant solutions of transportation problems,—the streamlined kiddy car, the speedy skates, and the powerful box scooter. And we hereby advance the "Share Your Scooter" policy.

After reviewing the various available means of getting around, we advise our readers to choose their own, but, confidentially, we have decided that we would rather just stay home.

By Marty Beard

More than 3,500 students who have attended the University of Wisconsin are now in the armed services.

## CURB THOSE CURVES

● It's not only the army that must keep "tummy in, chest out." Gossard famous make of panties, girdles, and bras will help those "bulges" into shape.
