

Campus Red Cross Initiates New Quarters

Campus Red Cross headquarters are now in the building next to the College Side. The new location was formally opened Monday afternoon with a class in surgical dressing, according to Carolyn Holmes, chairman.

"Each girl should put in at least two hours a week," says Miss Holmes.

A class for men begins Tuesday afternoon from 3 to 5. Fifteen men are expected to attend and if the class is a success, there will be an exclusive men's day.

Classes are from 3-5 each afternoon and from 9-12 on Saturday morning.

Nazi sympathizers cannot belong to the Heimdal society at Upsala university, Sven's conservative student society.

Small Talk

(Continued from page two)

BILL BERGMAN, Delt, and JOHN D. I. BERGMAN, are currently checking the deal. . . .

"PETER," of the "GLEMME DEMMER'S" is in steady with Beta PAUL BEARD, and BECKWITH has been "aced out" again!! And where does Bill Loud fit into this picture?

We personally institute a contest to find the "cutest" freshmen? Our personal nominations are: PETER HILL, the "sweater boy" of the Delt clan, and SUNNY "NIG" FENTON, leader of the wolf pack at the Kappa Sig house.

Eligible Elgin?

And long as we're plugging people, how about JIM ELGIN? GERD HANSEN, KKG, activity girl, took SAE's BILL TUGMAN'S pin this weekend.

H. J. KERR, beauty of the

Theta house announced her engagement to Naval Cadet GORDY HOY, former Sigma Chi.

Kappa Sig BERT HAGAN, ensign now, was down for the weekend—and LIEUT. HARVIE JENKINS came down to see Delt GAMMA M. A. JOHNSON.

JANIE DOYLE, KKG, blonde beauty, came down to brighten our dull old campus—

BUD PUTMAN, Theta Chi prexy, is no longer going steady with JOANN HEMENWAY, pixie of the Pi Phis.

Not Steady Now

Both the Petersen girls are to be married in a month or so—STEPHANIE to Sigma Nu prize, DON SEELEY, and JANETH to SERGEANT BOB KEEN.

For a parting shot, Alpha Phi fresh, PHYL WISTING, took "STRAP" STROHECKER'S pin again!!!

A word from our sponsor, the Emerald. Read it.

moors the other night was Bill's promise that, hidden way down deep somewhere that would never be suspected by the alfalfa listeners, the station had salted away big fat transcriptions by Luncefort and Kenton and others within the pale. And, bless him, he was telling the truth.

We kept each other company to the Grunt combo's "Blues in F Minor." And then there was one after another of the fine Lunceford tunes that he never put on phonograph wax: "Walking Through Heaven With You," "The Morning After," etc. Long after the transmitter had been turned off, I was still knocking myself out on some Sonny Dunham and we had just scratched the surface of good music in the station's libe.

If you are asking why Wm.

doesn't spin this stuff instead of all the class Q that is aired, there is an answer: A radio station is an advertising medium—and you have to appeal to the market. Whether the market has straw in its mane or zippers on its cuffs, you give 'em whatever will keep them listening, so, as a rule, the only time you pick up reet music in this area is after the farmhands have turned in.

Coeds Elect

(Continued from page one)

AWS and YWCA officers will be announced as soon as ballots are counted following the assembly, and WAA officers will be announced at their banquet Thursday night.

"Be there as soon as possible following your 10 o'clock," urge the members of the AWS council. "And most important of all, be there."

Life in the WAAC

Some questions and answers of interest to every patriotic college woman

The drilling sounds so strenuous—?

Nonsense! The most beautiful women in America today are the girls in khaki! Some calisthenics and drilling are vital to general good health, discipline and tuned-up reflexes. After a few weeks at Fort Des Moines, Daytona Beach or the new Fort Oglethorpe training center you'll feel better than ever in your life.

Maybe I wouldn't like the work?

People are happiest doing what they do well. Every effort is made to place you where your service will count most toward final Victory. You may have some latent talent that will fill a particular need for work interesting and new to women—such as repairing the famous secret bombsight, rigging parachutes, operating the fascinating new electronic devices—or driving an Army jeep over foreign terrain.

Then I have a chance to learn something new?

Yes, indeed. And the list of WAAC duties grows constantly. The training and experience you get in the WAAC may equip you for many stimulating new careers opening up for women.

What are my chances of promotion?

Excellent. The Corps is expanding rapidly and needs new officers, both commissioned and noncommissioned. Those who join now have the best chances. All new officers now come up through the ranks. If qualified, you may obtain a commission in 12 weeks after beginning basic training.

What is the age range and other requirements?

Very simple. You may join if you are a U. S. citizen, aged 21 to 44, inclusive, at least 5 feet tall and not over 6 feet, in good health—regardless of race, color or creed. But the Army needs you now—don't delay. Total War won't wait!

Linguists needed. If you speak and write Spanish, Portuguese, Chinese, Japanese, Russian, French, German or Italian, see your local Army recruiting office now! You are needed for interpreting, cryptography, communications.

First of all, is the WAAC really needed?

Emphatically yes! Already the President has authorized the Corps to expand from 25,000 to 150,000. The Air Forces and Signal Corps have asked for thousands of WAAC members to help with vital duties. Both Ground Forces and Services of Supply are asking for thousands more. Members of the WAAC may be assigned to duty with the Army anywhere—some are already in Africa and England.

Can the WAAC really help win the war?

The whole idea of the WAAC is to replace trained soldiers needed at the front. If American women pitch in now to help our Army (as women in Britain, Russia and China do), we can hasten Victory—and peace.

What can my college education contribute?

College training is important equipment for many WAAC duties too long to list. Cryptography, drafting, meteorology, laboratory work, Link trainer and glider instructing, for example. If you are a senior you may enroll at once and be placed on inactive duty until the school year ends. See your WAAC faculty adviser for more details.

But can I live comfortably on WAAC pay?

There are few civilian jobs in which you could earn clear income, as WAAC enrolled members do, of \$50 to \$138 a month—with all equipment from your toothbrush to clothing, food, quarters, medical and dental care provided. WAAC officers earn from \$156 to \$333.33 a month.
