

Alumna Becomes Air Stewardess

Taking up her duties aloft, as one of the new "coed" stewardesses of United Air Lines, Miss Jean Talbot, graduate of the University of Oregon and member of Delta Gamma sorority, has completed her training at United's stewardess school in Chicago.

Miss Talbot, a Portlander and sister of Lois Nelson, freshman in liberal arts, attended Los Angeles City college for two years, then completed her studies at Oregon from 1940 to 1942. She was active in the cultural arts club, the ski club, and various other campus activities.

Assigned to the western section of United Air Lines' coast-to-coast system based at Portland, she is one of many girls, who have been in "coed" stewardess training since the company waived its former nursing requirement.

THE ZONE

— where cigarettes are judged

The "T-ZONE"—Taste and Throat—is the proving ground for cigarettes. Only *your* taste and throat can decide which cigarette tastes best to you...and how it affects your throat. For your taste and throat are absolutely individual to you. Based on the experience of millions of smokers, we believe Camels will suit your "T-ZONE" to a "T."
