

Plaque on Display at Co-op Honoring ADS Servicemen

By MARGARET McGEE

Commemorating their almost 100 alumni and active members now in service, Oregon's W. F. G. Thatcher chapter of Alpha Delta Sigma, men's advertising honorary recently designed the plaque which this week appeared in the display window of the University Co-op store.

Built in the form of a massive, hand-carved shield, the plaque bears the names of 98 former students now in the armed forces, and that of Edmond Labbe, Portland; who was reported killed in action overseas. Honoring Labbe is a special gold star placed opposite his name in the list.

Presented to the group at a luncheon held last week, the shield was designed by Don Dill, chapter secretary for this year, now a member of the armed forces. Following its exhibition in the Co-op window, the plaque will be set up permanently in the office of W. F. G. Thatcher, national president of the honorary.

Films of China Showing Slated

By JILL AMES

Motion pictures of provincial phases of national life among the gentry and lower classes of China will be shown students of Dr. H. G. Barnett's class in "Peoples of the Pacific" and the general public at 7:30 Thursday evening in 301 Condon hall.

Peasant Life

Depiction of the peasant's method of tilling the soil, his home life, and his society help tell on film the story of the struggle for existence of the lower class Chinese. City life with its crowded utilities, tiny shops, street vendors, and its aristocracy balance the other side of the picture.

China Culture

China's cultures, as exhibited by both the upper and lower classes, and as presented by the film, include the method of making pottery in the western provinces along the Yellow river, bamboo furniture and chop sticks as constructed by China's craftsmen, threading silk from the cocoon of silk worms, bakers making Chinese noodles to sell on the streets, silver workers, and illustrations of the hand-operation of a mill for grinding grain.
