

# WAA Board To Convene; Frosh Invited

## Igloo Rocked by Swing Band At Friday Night Assembly

By WILMA FOSTER

Plans were discussed Thursday evening for the Women's Athletic association for the demonstration, which will be given October 21. This is chiefly to introduce to the freshmen and all other women students the activities in which they can take part if they desire.

A skit will be given as part of the program. This and the whole demonstration is under the supervision of Martha Jane Switzer. WAA council members are her executive staff.

Volleyball practice will begin next week, and tournaments will be scheduled for the week following.

Evelyn Marshall is the new volleyball head; Helen Johns is at the head of basketball. Several sports such as swimming and hockey have not yet been decided upon.

Also listed for this term is a recreational evening. The exact date is undecided but it will be scheduled approximately once a month. Swimming, dancing, volleyball, badminton, basketball, and ping pong are some of the high spots but other sports will be included.

A meeting of all WAA members with the council will be planned for the fall term also. The various heads will give their respective reports, awards will be presented, and new members of WAA will be initiated.

Highlight of the soldier student assembly last night was the soldier swing orchestra which rocked the Igloo. Sue Welch, as vocalist, singing, "I Heard You Cry Last Night," and "All or Nothing at All," hit the high spots. Leader of the band is Owen Bailey.

A small band composed of five members of the big band was featured in "Honeysuckle Rose." The group includes Jack Blumenthal, saxophone; Ralph Sutton, piano; Whitey White, drums; Marvin Rice, clarinet; Bob Stottlar, trumpet; and Owen Bailey, trombone.

Skits by Cy Klepner and Jack Stickney kept McArthur court roaring throughout their presentation. The troubles of a basic I engineer during a physics exam drew the most applause.

### State Plans

Dr. Donald M. Erb, president of the University; Nancy Ames,

### Color Schemes Intrigue

(Continued from page one)

room-mates informed the stranger in hushed tones. "We keep her in the basement."

Gibbering only slightly, the newcomer tottered on to the Alpha Phi hideout. Before she could make her escape she had been all but bowled over by one room which contained pale green walls, solid scarlet rugs, and red and white polka-dotted couch covers. Two or three other rooms had been made over in varying combinations of pink, blue, and green.

### Character Colors

Although our poor friend was by now glancing about for a store in which to buy some doll cutout books and a pair of scissors, she was unable to tear herself free from her insidious obsession for color before she had cast her eyes over the Sigma Kappa "Scotch plaid room," the Pi Phis' bright red bureau and red, white, and blue experiments, and the combinations obtained by the Gamma Phi Betas, who exhibited rooms done in light and dark yellow, blue and pink, and white and blue.

Upon being informed that nearly every women's house on the campus contained new and original color schemes produced and applied by the girls themselves, the stranger to the UO threw up her hands and emitted a blood-curdling scream. Before her mind lapsed completely, however, she learned that the blindfolded girls had merely been giving their eyes a rest and the cotton was being used as ear stuffing by others, in order to obtain relief from the loudness of their decorations.

And the hammer horseplay? Why, it was the only way in which that particular set of girls could gain a little sleep!

Study of level flight speeds of more than 450 miles an hour is the purpose of a new \$2,100,000 wind tunnel now under construction at Pasadena by the Calif. Institute of Technology.

ASUO president; and Major W. S. Averill, commandant of army students at the University, stated the plans and relations of the civilian and military students.

Dr. Erb defined the difference between army and civilian students as a difference in those directing them. The University keeps the civilians in line and the army keeps the soldiers in line.

### Committee Explained

Miss Ames explained the formation of a coordinating committee to help satisfy campus needs. The army and civilians each have four representatives on the committee. She also stated that open house will be held in all women's houses tomorrow afternoon from 4-6, at which there will be records and dancing.

Gerd Hansen, chairman of the athletic card drive, awarded \$10 checks to the five houses which first reached 100 per cent in athletic card purchases. Five dollars was awarded to the sixth house. They are: Delta Gamma, Kappa Kappa Gamma, Alpha Gamma Delta, Hillcrest lodge, Patterson lodge, and Delta Delta Delta.

Don Dittman emceed the entertainment division of the show. Organization of the entertainment part of the program was under his supervision and that of Jean Taylor, junior in journalism.

### Infirmiry Drops Guest Total To Six

Twelve—take away six and you have—six, which is the greatly reduced number of infirmiry guests at the present time. One engineer, Joseph Bianco, left yesterday. The remaining engineers include: John Barclay, Ellery Pimentel, and Frank Washburn.

Maybe he decided that one month's stay was enough for anyone. Anyway, Harlow Bohn will be excused in the very near future. Which leaves two to be accounted for. Well, Jean Redmond and Robert Mueller make six. Who said we couldn't count?

But some muskets so contrive it, As oft to miss the mark they drive at, And though well aimed at duck or plover, Bear wide, and kick their owners over—John Trumbull.

HUNGRY after the show?
