Minister Sees Jap Relocation

(Continued from page one)
pressed the opinion that this would not be done until the war is over because of the problems involved in relocation.

Japs Improve Soil

"When the Japanese first came to this country they were sold worthless land at exorbitant prices, and now that they have reclaimed this land it has become some of the best agricultural property on the coast," Rev. Nicholson stated. "Much of this land has been lost by the Japanese because of the action of certain groups of business men, agriculturists, and real estate men. These selfish pressure groups are bogging down the government in its relocation activity," he continued.

Rev. Nicholson added that what we do with this present situation will determine the history of our relations with all the different racial countries of the world for generations to come.

AOPis Set Record

air raids, Miss Dunn stated. The work was carried on by students this year because the fire marshal will not have time to come to the campus and check on all the houses.

The AOPis "won the race" by getting downstairs in a record time of 35 seconds. Other houses that came down in 50 seconds or less were: Delta Gamma, 40; Alpha Gamma Delta, 45; Alpha Chi Omega, 45; University house, 50; Alpha Phi, 50; Delta Delta Delta, 50; Casa Blanca lodge.

The team as it now stands will measure up just about as well on the line as the "Air Boys" but lacks some of the experience on the field. The team will be in pretty good shape for the game but Shafer will favor a leg injury suffered in the Marshfield game. Right halfback, L. Sommers, will likely be out of the game altogether with a leg injury.

This will be a fourth game of the season for the ASTU boys who have won two of the three games. They are out to make it three for four.

Ducks Ponder Way Home

(Continued from page one)
Immediately, every effort would be made to have some form of transportation available when classes end. Buses run about every two to four hours.

In cooperation with train and bus agents the Emerald is printing a transportation questionnaire. Information gathered from it will be given to local agents. It can be found on page four and should be clipped and brought to the Emerald newsroom today.

No Estimate

Southern Pacific agents in Eugene refused to venture any estimate as to how many extra passengers they could carry around December 15. Reservations for coach space are required for most trains and after they are sold no more room is available. Pullman space is usually filled in advance. Some space may yet be left.
