Up From UO

(Continued from page two) wrote a personal letter to Roy N. Vernstrom, editor of Old Oregon, and mailed it with the above-mentioned article. It was the last direct news received from him by his Alma Mater and probably should be quoted for its admirable statesmanlike qualities which he attributes to his University education.

"Upon assumption of the office as Foreign Minister of Japan, I feel I should report to my Alma Mater, and I thank you for the opportunity you have kindly given me . . .

"You Americans should know what we are actually doing and really intend to do out here. There are gross misapprehensions and misgivings on your part. Unless I can correct them, I do not see how I can profitably approach the question of correcting the relations between our two countries.

"I hardly need to tell you that nothing is more welcome and encourages me more than the cheerings and congratulations that come across the Pacific from the Oregon alumni.

"Yes, Ambassador Grew is doing splendidly and is liked and respected in Japan. He certainly represents your country with the best American tradition and that with honor and distinction.

"Please convey my warmest greetings to all the Oregon alumni and to Alma Mater.

Yours truly,
Y. Matsuoka"
