Bureau Reports Used By Navy Recruiter

Reports of the Bureau of Municipal Research and Service apparently have a wide variety of uses. In a recent letter received from the Portland office of naval recruitment, officer in charge of procuring naval officers personnel and Wave personnel in Washington, Montana, and Idaho, he says:

"Your pamphlet 'The Units of Government in Oregon, 1941' has been of great use to this office in deciding the best portions of the state to cover and prospects for additional officers and Wave personnel." He then goes on to ask if there is a similar bureau in Washington, Montana and Idaho where he could find similar information "The Units of Government in Oregon, 1941" enumerates and describes briefly the number, population, and size of all governmental units in Oregon.
