

Schools Tell of Union Building

This is what other schools say about their student union buildings:

THE STATE UNIVERSITY OF IOWA—

"The most attractive feature of our building is the large lounge, 90 by 130 feet which is really the living room of the University and referred to as 'The Hearthstone of Old Gold.'"

PURDUE UNIVERSITY—

"... But the bowling alleys, built at the behest and with the foresight of the men, has become a favorite recreational center for the Purdue girls. Day and night they demand and get their share of the bowling play."

UNIVERSITY OF WISCONSIN—

"This is the core of our campus neighborhood life. The Union literally has made it feasible for the campus to reach the goal of a close-knit community of students and teachers."

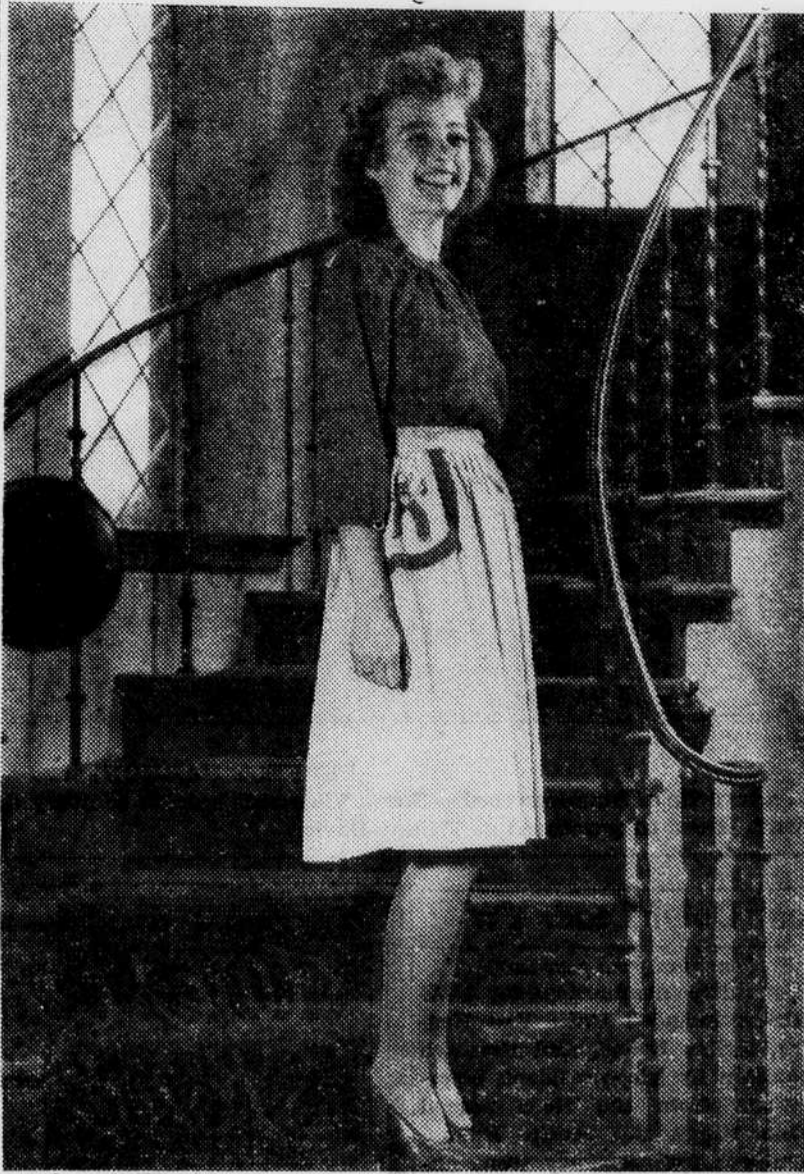

"The greatest virtues of this community life are perhaps the intangibles of the personal satisfactions a student finds in his campus experience and the personal contributions of good citizenship he learns to make in living and working well with others. They defy cataloging..."

UNIVERSITY OF MINNESOTA—

"There is a large general lounge room on the main floor and separate lounge rooms for men and women on the second floor... The campus postoffice with more than 15,000 student boxes is in the Union... Recreational facilities include a billiard room, general game room and bowling alleys... The furniture and furnishings in the building are extremely colorful and attractive. Great care was exercised in the selection of the furniture both as to appropriateness and price."

UNIVERSITY OF WYOMING—

"At least 90 per cent of our student body of 2,000 are making the Union their true campus living-room, as the building was intended. Of course this has a wholesome result. Students who formerly saw one another occasionally, now fraternize regularly. Greeks and independents enjoy themselves side by side. In short, I sincerely believe our new building is doing much to weld our student body into a much more integrated group. I think henceforth we will be graduating University of Wyoming men and women rather than Sigma Nus or Phi Deltas who attended the University of Wyoming."—Burton Deloney, Director, Wyoming Union.
