Men Ratio Increased **On Campus**

to women on the campus. Last term it was 1 to 5; last week it was estimated to be 1 to 4. At the close of the first week of winter term registration Saturday, the ratio was, roughly, 2 to 7. Now to be found on the campus are 380 men and 1398 women, a total of 1778 to date which includes the 101 new students this term. Among new students matriculating the men outnumber the women; 56 men, and 45 women.

This is no time to change one's major, but the registrar's figures reveal that the law school has only 9 women, and all of 40 men. In no other major fields are women outnumbered. However the men hold their own in the business administration school with a total of 81 to a total of 141 women. There are 37 women physical education majors, and 18 men in that field.

Comparing student enrollment totals for the first week of registration with the same period last year shows a 20 per cent increase in students, but that does not necto C. L. Constance, assitsant registrar. Since registration began last winter term before New Year's day, there was an unusually heavy late signup. Mr. Constance does not anticipate am many registrants owing this second and final week.

Totals by classes show the juniors lagging with 14 men and 126 women. There are 30 men and 150 women in the senior class. The freshman total of 795 is made up of 169 men and 625 women; and the sophomore total of 573, 125 men and 448 women. Of the 50 graduate students, 20 are-men and 30 are women.

Serious Music Said Necessary As Source of Hope, Inspiration

Music in wartime is important as a source of hope, solace, and spiritual encouragement, believes Joseph Szigeti, one of the world's leading violinists, who will appear in a concert Sunday at 5 p.m. in McArthur court.

"According to popular theory, people in time of stress can't

stand anything heavy," says Szigeti. "This may hold good for plays lars for the treasury department, for music this is not true. In times such as these, people need serious music."

Hungarian-born Szigeti has done much to bring to Americans the ances, has raised thousands of dol-
