

Politically-Minded Freshmen To Vote on Constitution Jan. 17

Freshman embryo politicians will get their first taste of campus politics Wednesday, January 17, when they vote on a class constitution and nominate officers for the 1945 term.

The constitution to be submitted for their approval contains primarily the same provisions found in the immediately previous class constitutions; and, as directed in the ASUO constitution, is in accordance with ASUO rulings.

Under this constitution, officers of the class of 1948 would consist of a president, vice-president, secretary, and treasurer. With the exception of the presidential office, all vacancies are to be filled by decision of the remaining officers. Other appointments also are made by the officers.

All members of the class of 1948 are eligible to vote and to hold offices, according to the suggested constitution. At one time each class required the purchase of a class card as a prerequisite for voting or holding office but the executive council outlawed the practice spring term, 1942, making it illegal for any class to include a class card provision in its constitution.

As with all class constitutions, nominations are to be held at least seven days before elections, al-

though the nominating assembly winter term the first year is held two days before elections. Certification of eligibility and declaration of intention to run must be submitted to the ASUO president at or before the nomination assembly.

Differing from previous constitutions, no provision is made for dark horse candidates who might decide to run for office after the nominating assembly is held. Only persons whose petitions are submitted previous to the nominating assembly or at that meeting are eligible for election.

A ballot recount may be requested by a petition containing names of 25 members of the class and presented to the president up until two weeks after elections.

The constitution provides that a quorum consists of one-fifth of the members of the class. Amendments and by-laws are subject to a two-third vote, plus approval by the ASUO executive council.

class election completely handled by the freshmen themselves and excluding the possibility of political pressure groups as experienced in former years.

The original plan was amended to follow the outline described in the second paragraph.

Ducks Give Hollywood

(Continued from page one) and peekaboo bang" of film fame were portrayed by Janet and Helen Hicks and Nancy Knight, who were enthusiastically received by the audience. Bob Moran played and sang his version of "Little Red Riding Hood," and "Brother Bill," a Louis Armstrong novelty tune.

The rally squad introduced three new yells and Bill O'Hearn announced that the Beaver-Duck game will be this Saturday night at Corvallis, with a rally dance following the game. Calls were made for band members and petitions for rally squad positions.

Audrey Holliday, ASUO president, announced that there are two positions on the executive council open and asked that petitions and eligibility slips be turned in to her. She also said the freshman nominations for class officers will be Wednesday night, January 17, and stated that she hoped there would be no direction from blocs concerning these nominations.

"THE CLIMAX"

Symposium Slated In Portland Soon

Two University faculty members will participate in a symposium on early man to be conducted Saturday, January 13, at the Academy of Science in Portland.

Dr. L. S. Cressman, head of the anthropology department, and Dr. W. D. Smith, head of the geology and geography departments, will represent the University. Oregon State college is sending Dr. Ira S. Allison of the geology department, and Dr. H. P. Hansen of the botany department, to the symposium.

These four men have cooperated

in archeological work in eastern Oregon and will participate in the program.

Right After Buell

(Continued from page two)

cratic governments of western Europe now fighting for their lives or are we going to pursue a hands-off policy as Mr. Stettinius seems to think we should?

Eighty thousand determined Bolsheviks took over Russia from the liberal Kerensky government. Should we allow the same thing to happen again? We believe a lasting peace can only be won by following the Atlantic Charter and not by dividing Europe into two spheres of influence—one British and one Russian.
