

Church to Have Orient Speaker

Mrs. A. H. Norton is the first guest speaker for the college fire-side of the First Congregational church in the new series on religions of the world and their effect on the present international situation.

Mrs. Norton, who lived in the Orient for a number of years, and who has studied various religions in relation to Christianity, will center Sunday's discussion around the topic "Which Religion?"

In deference to midterm examinations the meeting will be from 7 to 8 p.m. with refreshments at the home of the adviser, Mrs. W. G. Williamson following the meeting. The regular time of 8 to 9 will be resumed February 11 for the remainder of the quarter.

All college-age young people are invited to the firesides.

Servicemen Will Get

less, has kindly consented to uphold the name of Phi Theta Upsilon and play forward again.

Betty Lou "High Score" Butler, will roll up the points for the Phi Theta Upsilon team by her cool deliberate manner on the floor and the accuracy of her shots.

Ann "Snickers" Graham, on the defensive again, is expected to render indispensable services for the Phi Theta Upsilon team as left guard.

Joanne "Eagle Eye" Holstead as guard will prove to be asset number five to the Phi Theta Upsilon team.

Completing the starting lineup will be Prexy Eklund, guard, who reports the team "is shaping up nicely."

Phi Theta Upsilon will be playing without the services of Janet "Beanpole" Douglas and Dorothy "I hate short men" Godknecht who are suffering from palpitations of the heart. The two lanky Phi Theta's will loyally assist their team, as powder and smelling-salt girls, respectively. It is

propaganda and to maintain morale. Many Germans were captivated by the spirit, he said. This spirit is the fundamental attitude of all who aspire to be massmen, he explained.

The speaker said that, according to the Christian faith, all that ought to be will ultimately be realized. The fundamentals of the Christian faith are to believe in God as the Creator and as the Saviour. Nothing that is evil can defeat the good, he said.

We are catastrophists in trying to surrender the feeling of continuity, Dr. Pauck declared. He told of a speech he gave at his graduating exercises which astounded the older people because he showed such a faith in the continuity of life.

"We cannot be truly responsible persons unless we believe in historical continuity," he further declared.

Webfoots Meet U. of W.

tinue to hit the basket as they have done so far this season. Wilkins is 7 points above the speedy Washington guard in the scoring with 110 counters to 103.

A crowd of approximately 6,000 fans is expected to jam the Washington court to watch a racehorse, run-and-shoot game.

This year's much improved Ore-

gon quint hopes to pull a turnaround on the Huskies to revenge last season's 40-38 and 67-25 defeats. Two games in the win column would give Oregon a clean sweep of the four-game series, as the Washington five did to the Oregon varsity last year.

Warren is almost certain to start Dick Wilkins and Del Smith at forwards, Ken Hays at center, and Jim Bartelt and Bob Hamilton at the guard spots. For Washington, the probable starters are Don McMillan, Norm Carnovale, Bill Vandenberg, Dick King, and Bob Jorgensen.

Globally Speaking

as king and the short war with the Reich that led to the occupation of the country after a week of fighting.

Mikhailovitch's Chetniks immediately started to fight the Nazis. After the invasion of Russia, Tito's partisans entered the picture. Tito's exploits at first existed solely in the mind of the Tiflis radio which masqueraded as the partisan radio station.

The two factions spent more time fighting each other than they did the Germans. Britain and the United States first backed Mikhailovitch; switching when the Teheran conference assigned Yugoslavia to the Russian sphere of influence. Tito will probably make Yugoslavia a constituent republic of the Soviet Union.

GI Loans Explained

(Continued from page two)

from his local banker, he should then apply to his nearest RFC loan agency for a loan. The address of the appropriate agency for this region is 444 Pittock Block, Portland 5, Oregon.

"Banks desiring to assist veterans in this program may obtain the necessary regulations and loan application blanks from the local regional office of the veterans' administration," Mr. Kennedy said.

"The requirements of the law are that the veteran must be found qualified by training or experience to engage in the type of business for which he seeks a loan, the property sought to be acquired is reasonable in price and suited to its intended purpose, and that the venture is likely to succeed."

"Since the act does not provide for loans to run businesses, the lender will want to know whether the veteran has sufficient funds for this purpose, as well as ability, dependability, business experience, and business character, to assume a reasonable likelihood that the veteran's contemplated operations will be successful. The lender will also want to know whether the veteran has been in such business before entering the service and the nature of his service experience and training."

"Veterans are well advised to be on guard against fraudulent or absurd propositions and careful of

exploiters. With the aid of the banker, who is schooled in such matters, veterans should investigate very carefully all propositions presented to them. There are many pitfalls, difficulties, and hard work in operating one's own business."

BATTLE REPORT TO ALL HANDS

EVERY seaman and officer aboard our Navy's fighting ships instantly hears the call to action, follows the battle's progress over a special type of announcing system made by Western Electric.

On carriers the entire crew, topside and below deck to oilers and ammunition passers, can hear first-hand accounts direct from the pilots themselves on how it went "upstairs."

Meeting the communication needs of our armed forces requires all available manpower and manufacturing facilities. That's why telephone equipment cannot now be built for civilian use. After the war, Bell Laboratories' scientists and workers at Western Electric will turn again to their peacetime jobs of designing and making telephone equipment for the Bell System.
