

## Job Openings In USO Work

Openings for positions in the USO division, YWCA, occur from time to time. Jean Reynolds, personnel secretary for the division, has informed Karl W. Onthank, dean of personnel. People with college degrees and majors in social science, economics, education, or physical education are preferred. Few students on the campus would qualify, however, as applicants must be at least 26, and have experience with community groups.

Miss Reynolds explained that although USO work had been withdrawn in some communities, the YWCA is becoming increasingly responsible for work in USO clubs serving industrial employees. Staff members familiar with problems faced by industrial workers in adjusting themselves to strange communities and new jobs are needed. Positions are open for staff assistants, 26 to 38, assistant directors, 28 to 42, and directors, 32 to 50.

## Shrubbery Moved Across Grounds

Around the women's athletic field a number of new shrubs are being set out. D. L. Lewis, superintendent of the physical plant, announced. In addition to this, a better drainage system is being arranged for the men's athletic field.

Lewis explained that there are nursery fields on various spots of the campus. From time to time shrubs and plants are transferred from these fields to other places on the campus where the need is greater.

Keeping the campus in shape is a full-time job, according to Lewis. Two men are employed full time trimming trees and bushes. There are on the physical plant payroll nearly 75 men who "keep things going."

Soon, he said, the lawnmowers will have to be started. As soon as the rainy season ends, it will be necessary to water the lawns. For this purpose water is pumped from the millrace, as city water is too expensive to be used on such a large scale. Last summer's project included the construction of many new walks over the campus.

## Alpha Xis Trounce Gamma Phi Sorority

Tuesday's basketball game, between the Gamma Phi Beta team captained by Janet Thompson and Lois Whaley's Alpha Xi Delta team, ended in a victory of 13 to 9 for Capt. Whaley's five. The Gamma Phis' captain, a forward, was handicapped in the game by an injured back, but both sides played evenly matched games. Alpha Xi Delta forwards, Martha Cool and Julie Evonuk, were high scorers for their team. On the indoor court the Orides team defaulted its game to the Kappa Alpha Thetas.

In Monday evening's game Hendricks hall defeated Hilyard house, 29 to 17. High scorer on Barbara Borrevik's Hendricks team was Elaine Taylor who made 22 out of the 29 baskets. Marilyn Glenn was the highest scorer in the contest between the Delta Gammas and University house team No. 1 on the outdoor court. The final score was 15 to 12 in favor of Delta Gamma. Barbara Wells was top basket maker for University house.

## Article by Dr. L. E. Tyler Published in Magazine

Dr. Leona E. Tyler, assistant professor of psychology, has written an article to be published in the February issue of the Journal of Applied Psychology.

Titled "Relationship Between the Strong Vocational Interest Scores and Other Attitudes and Personality Traits," the article emphasizes the differences in the social outlook of scientists as comparable to salesmen. The study conducted on the subject shows that the salesman takes pleasure in social gatherings and the scientist prefers the company of smaller groups of people.
