

Duck Tracks

By BOB CHAPMAN

Jerry Lillie's Grant Generals brought the Portland prep schools their second consecutive title in the Hayward relays in as many years by taking five out of ten firsts in addition to establishing a new 440-yard relay record in the eighth annual Hayward relays last Saturday. Last year's state titleholders, the Jefferson Democrats, placed a poor second but nevertheless Portland entries walked away with nine firsts in addition to winning their second title since entering the Oregon State High School Athletic association in 1943. Prior to their entry into the association Portland entries were ineligible to compete in the Hayward relays and the state basketball, baseball, and track finals.

The General tallied 32½ points in the A division while Scappoose nosed out last year's titleholders, Beaverton, by two points. Sheridan edged out Arlington in the C division with 18 points as compared to the latter's 17½.

Bill Hayward was highly satisfied with the meet, but next year he plans to make the Penn relays of the west a two-day affair. The meet last Saturday went over the time limit by nearly an hour and if a two-day schedule is adopted spectators are expected to turn out in larger force to watch the finals. Contestants should be in better condition to enter track and field events for the simple reason that anyone tires of a long and drawn-out contest.

The boys who officiated the meet did a great job of officiating and scoring the different events. Special credit should be given to Ed Allen, chief marshal, who did the work of three men in keeping the fans and contestants in their assigned areas.

Vesper Concert Tickets Available

Tickets for the vesper choir concert, to be given at 8 p.m. Friday in the school of music auditorium, may be purchased from members of the choir at Miller's store downtown or at the door.

They will sing the same concert at Reed college in Portland, and the admission price of 35 cents is being charged to cover the costs of that trip.

Soloists featured at the concert will be Thelma Wick, Jerine Newhouse, and Enid Smith. The accompanist is Betty Taylor. The University string quartet will play a Haydn quartet, serving as a contrast group to the choir selections.

Intramural Softball To Continue Schedule

Intramural softball games will continue on schedule. All games that are postponed may be made up on any open day. The week from April 27 to May 7 is open every day. Games must be made up by May 7.

To make up postponed games, managers of both teams must agree on a day and inform Anse Cornell.

A schedule will be posted on the Co-op bulletin board.

to the world, raw materials must be made available. This can be done by moving boundaries so that the desired raw materials are in the country, or it may be done by providing good trade conditions so that the desired raw materials are made available to the countries of the world," Morris told his audience.

Two of the greatest industrial countries of the world, Germany and Japan, will be almost obliterated. Investments will be needed to build up these countries, as well as the many other countries of the world whose industries have been wiped out by the war. Precautions must be taken so that the investing country does not get control of the country in which they are investing.

Third Problem

The third problem of the world organization will be deciding how much compensation can be collected from the Axis nations for the destruction they have caused, and how it will be collected.

"The key to our economic problems," stated Dr. Morris, "is an organization to keep working year after year as the problems arise. War is just economic suicide for everybody concerned. That's why the San Francisco conference just has to work."

The second in this series of lectures concerning the San Francisco conference which the YWCA is sponsoring will be given by T. Z. Koo May 3, following an assembly talk that morning. The third lecture will be May 10 at the YWCA.
