

Treasury Has \$802 Balance

The ASUO had a current balance of \$802.10 in the treasury. This total will not be the final one for the year as there are still some expenditures to be made, including printing of ballots for ASUO and class elections.

Income this year was as follows: volunteer donations, \$1,448; refund of Gerlinger deposit, \$9.20; athletic board, \$90; war board, \$34.70; social chairmen, \$44.55; ASUO citrus mix, \$223.05; a total of \$1,849.50.

Expenditures so far are: irregular services, \$58.20; miscellaneous, \$347.23; equipment and supplies, \$55.53; war board, \$115.97; war bond drive, \$111.15; rally squad, \$100.97; educational activities carrying charge, \$35; scholarships, \$150; travel, \$73.45; or a total of \$1047.40.

The ASUO executive council Tuesday passed a resolution congratulating Ed Allen and Jean Kirkwood, co-chairmen of Junior Week-end, and their committees for a successful, well-planned, well-executed weekend program.

Transportation Ban Still Tight

WASHINGTON, May 10—(AP)—No easing of the transportation squeeze will result from the end of the war in Europe, the office of defense transportation said today.

Describing the next 12 to 15 months as the "most critical in the history of American transportation," ODT Director J. Monroe Johnson said in a statement that it might become necessary to establish a system of priorities to cover the movement of civilian commodities.

Civilian travel in the Pacific coast area "will become well-nigh impossible at times during the coming months," Johnson said.

Morse Backs

(Continued from page one) decency as a part of the university community," Morse said.

Meanwhile, at the University of Oregon, the blueprints which have been ordered to be prepared by the architect will call for four 4-unit structures and four 2-unit structures all of a one-story type and of permanent nature. A call for bids will be made for the construction and will be considered by the state board of education at their meeting on June 12.

President Hollis explained that every effort is being made to complete the project and have units available by the opening of the coming fall term. Certain difficulties are expected to be encountered, however, in the form of government priorities and in the securing of materials for the erection.

Just Plain Gossip

By BUD ALLEN

You don't say? Not really? Well that IS about the last straw!

Well, I promised faithfully not to tell this, but I can't keep it quiet a minute longer. The other day I just happened to be sitting in Robinson's drinking a coke when I overheard that a certain Dodie and a certain Don were thinking about tying that certain knot in the not too distant future. If congrats are in order I want to be the first because they certainly are two swell kids.

Boy, it must be nice to tread clouds. They say that Bill Donaldson and Max Davis, Chi Omega, are doing just that.

Buck on the Go

"The" Buckshot and Patsy Clair of Chi Omega are making the round again.

Not to be too inquisitive, but why did Bob Prowell buy a lamp at the auction Wednesday that sadly lacked light globes?

Pardon me while I order another coke . . . Well things are certainly looking up for the male sex around here. They tell me boys are worth from \$10 to \$98 which is a paltry sum for what you get.

Boy I wish that I had a "Maxwell." Maybe somebody would come down from Portland and go to the prom with me? Huh, Pete? All's quiet at the Theta house, because now they got their Bill.

Boy, those swimming parties at the Gamma Phi's at night must really be fun.

He's Got It!

Elmo Salstrom has certainly been giving everybody a break, what has that man got that gets him all the gals?

The atmosphere in this establishment is getting somewhat stuffy. You know a column written by a man is a pretty hard accomplishment; especially when it pertains to such little things as gossip. I'm sorry I couldn't get everybody in this time but I have to catch a bus down to Oak street. So long co's and ed's be good, have fun!

CAMPUS CALENDAR

The Student's Religious Council has scheduled a meeting for Friday, at 4:30 p.m. to be held in the YMCA. All representatives are requested to attend.

Chairman Wally Johnson has called an important meeting at the College Side inn at 4 p.m. Friday afternoon. It is requested that all members be present.

The bewildered guest eyed the youngster who was driving nails into the furniture. Turning to the hostess he remarked: "Don't you find it rather expensive to let your child play like that?"

"Not at all," the hostess replied. "I get the nails wholesale."

Junior: How old did you say she was?

Senior: Somewhere in her middle flirties.

Release Basis For GI's Told

WASHINGTON, May 10—(AP)—Soldiers who have rolled up a point score of 85—based on length and toughness of service and fatherhood—are eligible for release, the war department disclosed today.

One child, one year in the army, one year overseas count 12 points each under the system for cutting the fighting force. Each combat decoration adds five points.

Approximately 1,300,000 men, including 650,000 in Europe and 433,000 in the Pacific area, will be released during the next 12 months under the plan.

This number may be stepped higher by maintaining draft calls above actual replacement needs.

Another 700,000 men also are scheduled to be released from service because of physical disability, age, or other factors.

Aluminum Plant Men To Talk Here

Dr. C. H. Secoy, assistant professor of chemistry, spoke Tuesday at the meeting of the chemistry seminar in McClure hall on "Some Speculations Concerning the Existence of Carbon-Phosphorus Double Bonds."

At next week's seminar, two officials of the Chemical Construction corporation of Salem will speak. J. D. Pennell, chief chemist, will talk on "The Development of the Chemico-Alumina Process" and E. J. Nobles, plant engineer, will talk on "Alumina Plant Design."

OPERATIC MUSIC PROGRAMS PLANNED

Nine talented voice students will present a program of operatic music next Monday and Tuesday evenings, under the direction of Sigurd Nilssen, professor of voice in the school of music.

Those performing are: Marie Rogndahl, Margaret Zimmerman, Rose Zena Latta, Yvonne Prather, Barbara Bentley, Phyllis Perkins, Patricia Jordan, Iris Duva, and Shirley Stearns.

Everyone interested is invited to attend. The performance on Monday evening is especially for students, although those unable to attend Monday's performance may hear the program on Tuesday, which is expressly for townspeople. Both performances are at 8:15. There is no admission charge.

They Didn't Get Much

PORTLAND, May 10—(AP)—William McPherson consoled himself today in the belief that burglars who broke into his home had a tough job carrying off their loot, and currency they stole may be a teaser.

The loot: a piano, \$40 in Russian money, and \$150 in Mexican currency.

Gen. Weygand Arrested

PARIS, May 10—(AP)—Gen. Maxime Weygand, chief of staff to Marshal Foch in World War I and last commander in chief in France before the republic's collapse in 1940, was arrested last night on a warrant issued by the high court of justice, police disclosed today.

Stood: I'm so hungry I could eat a horse.

Eugene waitress: You couldn't have come to a better place, Mac.

Faces and Places

By SHUBERT FENDRICK

A mysterious sadness has fallen over the University of Oregon. All is quiet and melancholy. This is caused, observers believe, by the fact that I left for the navy last Tuesday.

"This is absolutely my last territorial demand," said Hitler as they lowered him into his grave.

Darrell Boone, Darrell Boone, Darrell Boone, Darrell Boone, Darrell Boone, Darrell Boone! There, I mentioned your name six times in my column—pay me.

I was turning in my ROTC uniform and was leaving for the navy. The students of the University were celebrating V-E day, while on the porch of the ROTC building stood Major Averill. The chance was too good to miss. I held up the uniform, bounded gaily up the steps, and shouted: "War's over—don't have to take ROTC anymore."

I guess the navy was scraping the manpower barrel, and finally, scraped through. It's too bad they didn't call me to arms a little sooner—I could have been your chin-up boy.

And now, goodbye to all my friends—both of you, and to all of you people who read this stuff I write.

Major: I'd like to talk to someone around here with a little authority.

Private: That's me, sir. I've got as little authority as anyone.

A railroad's roadbed has a lot to do with travel comfort. A well-built roadbed does away with annoying, sleep-disturbing bumps . . . like a boat breasting a choppy sea. It gives you "smooth sailing."

The kind of gravel used for roadbed ballast is an important factor. Union Pacific uses a special, sturdy type of crushed granite which stands up particularly well under wartime's heavily loaded freight and passenger trains. Then, too, it acts as a "cushion," resulting in more comfortable riding and less wear on locomotives and cars.

Thus, even the ballast used on the railroad's roadbed plays its part in efficient, 'round-the-clock transportation of troops and essential battle-line freight over Union Pacific's Strategic Middle Route, uniting the East with the Pacific Coast.

Future "smooth sailing" over life's highway can be assured by holding tight to the war bonds we now have . . . and, as an extra measure of economic protection, buying as many more as we can possibly afford.
