Susan Campbells' Lead Girls Intra-Mural Volley Tourney

By Phyllis Litzenberger

There has been some "dunking" on the campus other than doughnuts of the Twister sale and the non-conformers of the Sophomore Whiskerino. Wednesday night on third floor, Gerlinger the Alpha Xi Delta's went way under, loosing a hard fought game to the Alpha Delta Pi's. The two teams seemed to

be well matched as first one team and then another would take the lead. The first half of the game was non-rotation which seemed to agree with the ADPi's as they zoomed ahead with a 6 point lead. In the second half the game was switched to rotation and the Alpha -Xi's began to creep up. Just as the score was about to be tied, a new spark of energy, supplied by the scores of boosters of the ADPi team, lit the way to victory for the latter. During the last five minutes of the game the ADPis scored 11 points making the final score 42 to 28.

Outstanding Players

Outstanding players of the game were Martha Cool, Alpha Xi Delta center front, who did a marvelous job of smashing and killing the ball, Lolly Armstrong, Alpha Delta Pi center front who must have had springs hidden in her shoes because of the way she shot up into the air to slam down the ball. ADPi Nancy Mutz has a terrific serve that is seldom stopped by the best of them.

Kappa Alpha Theta added another winning score to their one win, two defeats, evening up their games to two wins, two defeats. This very close game was tied at the half and see-sawed back and forth until near the end of the game when Thetas gained two points. When the whistle blew ending the game, the final score was

Shirley Raeder Aces

Shirley Raeder, Zeta Tau, playing the center back position, is a credit to her team. She seems to be able to place her volleys anywhere on the opposing team's court. With just one hand she can hit with such swiftness that the ball is very hard to return.

A very good player for the victors of this exciting match is Sis Scott, frosh and also center back, who plays a very powerful game. Another good and amusing player for the Thetas is Martha Hock. Amusing because every time you look for her, you'll find her sitting on the floor, not because she's tired, but because she can't seem to keep on her feet.

The close games that have been played this week seem to run in streaks and such was the spectacular display of teamwork between Orides and Alpha Chi Omega. One team and then another took the lead, while the spectators and rooters went wild with spirit and enthusiasm. Orides won out in the tussle, scoring 32 to 30.

Strange But Furious

One of the most unusual games yet played this season was between Judson House and Delta Delta Delta, both undefeated. When the whistle blew for the half-time the score was in favor of Judson house. Both teams fought furiously, battling back and forth, for the outcome of this game meant much to both teams.

At the end of the game both teams were tense and excited as the score was announced tied at Merlene People, Zeta Tau Alpha; 29 to 29. It was decided to play Carolyn Fretwell, Hilyard house, an extra five minutes and again and Nona Nowlin, 951 Alder.

Army-Irish Top Gridders

Army and Notre Dame are again one-two in the associated press poll, in determining the country's ten best. These teams meet Saturday in Yankee Stadium, in a virtual play-off for the title slipped to fourth, one behind Alabama, after last Saturday.

The Crimson tide of Alabama was third after their last Saturday massacre over Kentucky 60-19.

Next in line is St. Mary's of California, then Indiana, Michigan, Ohio State, Pennsylvania and Columbia.

The University of Washington rated in the second ten, while Southern California, was given honorable mention.

Some changes this week are probable, after the Navy-Michigan tilt that takes place on midshipmen home grounds, and the big Army-Notre Dame game.

California Drills For Trojan Clash

BERKELEY, Nov. 9.-Determined to knock the USC Trojans out of the Rose Bowl race, the University of California Bears today settled down to hard work for their tilt with the Southern Californians in Los Angeles this Saturday.

Although the Bears only tied Washington State by a 7-7 score last Saturday, they showed considerable improvement over previous games and gave notice that they will be hard to beat from now on in. Only a momentary lapse which enabled WSC to score on a long pass, kept California from scoring its second conference

No Bear Injuries

The Bears escaped any serious injury in the Cougar game and will be at their strongest since the beginning of the season. Newcomers Walt Meyer, Bill Gardner, Jack Suseoff and Tony Messina who joined the squad only last week now have been familiarized with Shaw's system and should help H. Taylor Tells California's cause.

St. Mary's lopsided defeat of the Trojans also has given the Bears new hope and they will be out to hand USC its third defeat in a row. The Trojans also will be hurt by the loss of first string ends, Captain Jim Callahan and Harry McKinney.

Sharpening Passing Game

With California's running attack back in working order once more, Coach Buck Shaw plans to spend more time this week sharpening up the passing game which has failed to work consistently in recent tilts. Quarterbacks Ed Welch and Bob Powell and fullbacks Ted Kenfield and Bud Buestad are scheduled for extra workouts in the passing department.

Following their game with the Trojans in Los Angeles this Saturday, the Bears will return to Berkeley to play the University of Oregon the next Saturday, the game scheduled to start half an hour earlier than previous games, the kickoff being at 2 p.m. sharp.

Yeomen Dance

Yeomen, independent men's organization are planning to hold a dance and party sometime in the near future, according to president Harry Granger. Further information about this dance, which will be a date affair, will be released next week through the Emerald.

Jim Kenny, Sherry Ross; Bob Merz, 1018 Hilyard, and Fred The children's party was draw-Matthias, Zeta hall, are on record. ing to a close and the cook triumphantly brought in a heap-Tom Chloupek will be leaving ing platter of jello. Social Problems

By GENEAL COWAN

Social complexities in connection of learning formed the basis of Dr. H. R. Taylor's address to social science classes Thursday. Head of the psychology department, Dr. Taylor was guest lecturer speaking in conjunction with social in Portland last week. science background studies.

According to Dr. Taylor, there are two major problems facing us equality and democracy and another is the disagreement among according to production.

New Solution

This social situation will not be solved in the old way; he asserted, "new ways must be found." The solution then would seem to be one of "continual process of social learning and thinking"; the adaptation of the individual to the

Citing experiments of the German scientist, Koehler, Dr. Taylor pointed out that humans learn not only by the trial and error method but by Koehler's proven theory of insight. "There is a tremendous among people which must be recognized," he said.

New School System

Answering his own question, "Can individual differences be ironed out by education?" Dr. Taylor explained that education individual differences, Dr. Taylor would provide for extensive practice and opportunity but that sified school system. From such a actually "differences in individual school system would evolve strong started to leave the table. "None aptitudes cannot be erased by any leaders and strong followers com-
