Propeller Club To Establish Member Drive

Fall term organization of the Propeller club, a national group of men interested in shipping, was begun Thursday, it was announced by A. L. Lomax, professor of business administration and faculty sponsor of the club. Membership is open to all University students interested in the rudiments of the shipping industry and they are invited to attend the next meeting of the club Thursday at 4 p. m. in 107 Commerce building. There are no specific requirements as to upper or lower division standing.

The Propeller club is composed of two branches of organization—those in large cities and ports and those in student organization. The campus club, known as the Port of Oregon, was chartered in January, 1937, and, though the war years brought a lapse in membership and interest, Professor Lomax feels that the club will know a renewed enthusiasm.

In former years it has been the custom for the Portland Propeller club to invite the University members to an annual dinner when discussions of common interest are held.

The club also sponsors movies on foreign trade and other pertinent subjects. The purpose of the club is to bring together those with common interests in shipping.

Housing Unit Foundation Laid On Agate Street; Work Begins

Sorority Girls Restore 'O' on Skinner's Butte

Braving semi-polar winds and driving rain, the Zeta Tau Alphas, some thirty strong, crunch across the glass-strewn slopes of Skinner's butte last night to cover the unsightly orange-streaked "O" with a generous coat of yellow make up.

The ZTAs who, for almost two weeks, have been guarding their secret plans with all the care taken on the atom bomb, scaled the hill shortly after 7 p. m. armed with brooms, brushes, and many cans of yellow paint. In a few moments the "O" was once again transformed.

To help overcome the shortage of housing at the University, 26 prefabricated housing units from Richland, Washington, have been appropriated and foundations are being prepared on a site east of the stadium on Agate street. In addition surplus housing from the Portland-Vancouver area will be made available.

Arrangements for trailer houses from Troutdale, Oregon, and Pasco, Washington, to be leased from the government have also been made.

The units from Richland, which should be ready for occupancy by next term, will be rented to married veterans at a price set to defray the cost.
