

## 'Life' Pictures Ep Hoyt Jr.

Edwin Palmer Hoyt Jr., who attended the University as a journalism major, leaving the fall term of his senior year in '43, was pictured in the Nov. 5 issue of Life magazine in a picture story entitled "A Date in Chungking."

Better known as Ep Hoyt, he joined the staff of the Evening Star Tribune, in Washington, D.C., in July, 1943, and in December of '43 worked as a combat correspondent for the overseas branch, Office of War Information in the wireless division.

While at the University he was a member of Sigma Delta Chi, which is the men's professional fraternity and also belonged to Chi Psi. His father, Edwin Palmer Hoyt Sr. was a graduate of the University in '23 and is now editor and publisher of the Oregonian.

Palmer Hoyt Jr.'s picture appeared on Pages 138 and 141 with Barbara Stephens of Arlington, Va., who is a finance officer with the U. S. Information Service. The pictures depict their visit around Chungking beginning in the morning with their tour to the outskirts of the city and their trip to a Chinese pagoda, winding up with a visit at a Chinese opera house.

tend the game to have their letters from home in early to avoid confusion and misunderstanding.

## Atom Bomb Control

(Continued from page one)

These experiences make it clear that no nation possessing the atomic bomb will renounce its use in war. In fact, simple agreements of this kind between sovereign nations have no significance in war; war is in itself a manifestation of their failure.

### Complete Control

"We believe that there is only one way open to us as a nation. Every attempt must be made immediately to arrange for the control of this weapon by a world authority which can exercise complete and effective control of the production of the essential materials and of their use in every country.

"Only this world authority may manufacture atomic weapons and, by the fact that it alone is in possession of these weapons, it can enforce international law and peace. To be able to use this weapon the world authority must have military establishments of its own, responsible to it and not to the individual nations. It must have free access to all mines, laboratories, and industrial establishments everywhere in the world in order that no secret production by any group remains undetected."

Dr. Collins announced that letters would be sent to the President, to Congress and to the three laboratories advocating that this action be taken by the government.

Plans concerning transportation have not been fully developed, but they will be announced later.

## Bev Carroll Sees Thief; Prowlers Visit Is Brief

Hearing noises as she was preparing for bed early Friday morning, Beverly Carroll of the Alpha Phi house investigated and found herself confronted with a badly-frightened burglar.

Asked what he was doing there, the man quickly fled and dashed down the fire escape, setting off an automatic fire alarm which roused the whole house.

Investigation proved that he had already ransacked one room and taken seven dollars.

## Webfoot Hoofers Frolic

crowd Oregon's new typical "college kids," Phyllis Kiste, Hilyard house and Dick Wilkins. They both received engraved cups which were in the form of glass shaving mugs with the couples new titles painted on them.

## Lecture Series

(Continued from page one)  
fellow at the University of California from 1926 to 1929, Dr. Williams joined the staff as associate professor. In 1937 he was promoted to the position of professor, and in 1945 was made chairman of his department.

### Other Talks Scheduled

He is a member of the Geology Society of America, the Seismological society, Liverpool Geological society, and the Geological society of London. His special fields of study include the paleozoic geology of North Wales and the tertiary and recent volcanic activity in California, Oregon, and elsewhere.

Dr. William will also lecture in Portland and at Oregon State College. The Condon lecture series was suggested by the late Dr. John C.

## CAMPUS CALENDAR

### TODAY

Kwamas meet at 7 p.m., Gamma Phi Beta house.

Alpha Xi Delta open house.  
All active and prospective members of Alpha Kappa Delta, sociology honorary, meet at the Kappa Alpha Theta house, 4 p.m.

Merriam, consultant and lecturer on the human values of science and nature, and is intended as part of a program for interpreting science for the layman.

## Victory Drive Begins

(Continued from page one)

a screen test and a date with her favorite movie star.

According to an announcement made last night by Harold Wyatt, manager of the MacDonald theater, Oregon will sponsor two queens—at least one of whom will be chosen outside Multnomah county. Both girls will win a trip to Hollywood and a screen test.

Bonds may be purchased at the Co-op or in the lobby of the MacDonald theater. A ballot is issued with the purchase of every bond and is stamped by the issuing agency upon receipt of the money for the bond. No ballot is valid without this stamp and no ballot will be stamped on promise to pay.

The bond buyer writes the name of his candidate on the top line of the ballot and deposits it in a nearby ballot box. The vote is then credited to his victory queen contest.

Barbara Weiss, general chairman of the drive, announced the following committee chairmen last night: Geneva Davis, publicity; Barbara Patterson, coordinating; Maxine Jamieson, posters; Barbara Weisz, judges.

Wake up!  
Make up  
with

Clarion  
by  
Du Barry

A clear, ringing red that fairly trumpets its bright call to this season's vivid autumn costume colors—that's CLARION, the newest lip-stick created by Richard Hudnut. And there's a new CLARION DuBarry Face Powder, too—a tawny-pink shade that does magic to make your skin look cleaner, and more radiant.

Sound the Clarion note in your fall make-up!
