

# Remodeling of Gerlinger, Villard Halls Nears End

Living Quarters for 40 Girls, 80 Men To Be Ready by Start of Winter Term

The remodeling of the third floor of Gerlinger and Villard's second floor is nearing an end in the preparation of living quarters for 120 students at the beginning of winter term.

This partial housing solution was decided upon a few weeks ago and workers have been busily remodeling the two places since then. Mrs. Genevieve Turnipseed, director of dormitories, stresses that housing students in these places is definitely a temporary measure to meet the present situation.

Gerlinger's third floor will accommodate 40 girls. They will have a large sleeping and dressing room including individual lockers and chests of drawers. The girls will also be supplied with individual desks in a large study room on the same floor having a fireplace and piano. Bathroom facilities and a place where the girls can wash their clothes will also be provided.

### Girls' Facilities

The men's lounge on the first floor will be outfitted as a reception room. The girls will be organized as a separate living organization with their housemother occupying the dean's apartment in Gerlinger hall.

No eating facilities can be provided at the present time so the students living in both Villard and Gerlinger may eat their meals wherever they wish, Mrs. Turnip-

seed said. At present Villard hall is being prepared for men and will house approximately 80. It will be similar to Gerlinger in accommodations, having a large sleeping room with bunks and chests of drawers in the second floor auditorium of the hall. The men will have their lounge on the first floor, Mrs. Turnipseed said.

The furniture is all new and the greatest efforts have been made to make these quarters as livable and comfortable as possible, Mrs. Turnipseed asserted. Applications for rooms will be handled through the dormitory office in John Straub hall.

The atomic energy in a lump of coal weighing one pound would drive a locomotive and a train of 04 cars around the earth's Equator more than 150 times.

# Dr. Adler Returns From Training Talk

Following a training conference of Veterans administration advisers and vocational guidance counselors, Dr. D. L. Adler, assistant professor of psychology returned recently from the Salt Lake City meeting.

The conference program consisted of a discussion of various items in the counseling of returned veterans. The purpose of the meeting was to assist the counselors to give the best possible service to veterans seeking advice on entering the various training programs.

The conference at which Dr. Adler was delegate was the second one to be attended by a University professor this month. The first conference, held October 28 to November 8, was attended by Dr. Leona Tyler, assistant professor of psychology.

# Newman Club Outlines Winter Term Activities

The Newman club planning council met Sunday at Hendricks hall to discuss plans for winter term. More social activities and a greater variety of speakers at the Thursday luncheons were put on the must list by members of the committee.

Bob Tilden, president, appointed Kit Wilhelm publicity chairman and Don Breedon as vice chairman for the group. Member of the council are Don Tilden, Donna O'Brien, Dick Logan, Kathleen O'Connor, Don Breedon, and Kit Wilhelm.

## If mirrors could talk...

Does your mirror on the wall say "You've got the neatest shirt of all!"?

If you're wearing an Arrow shirt, with a smart Arrow tie and matching Arrow handkerchief, you really won't have to consult the magic mirror to know you look your best.

Because a well-styled Arrow shirt, a perfectly knotted Arrow tie, and an Arrow handkerchief to match, make an ensemble that is absolutely tops!
