Airline Tragedy Involves Grad

Oregon Stewardess Missing In Crackup

Stewardess Dorothy Jean Carter, 1944 University graduate, was one of three crew members and 18 passengers believed to have crashed in a United Air Lines plane on Elk mountain, Wyoming, sometime early Thursday morning.

Searching parties left Rawlins, Wyo., Thursday for the burned-out area in the forest on Elk mountain, where a fire was reported about 3 a.m.—just a few minutes after the United Mainliner, enroute east from Portland, reported that it was passing Sinclair, Wyo., on its course.

The burned-out area was explored from the air a few hours later by Capt. Frank Crismon, assistant superintendent of flight operations for United Air Lines from Denver, and he reported that it was the site of the crash.

Clouds closed in on the mountain before he could make a close investigation but he did not see any wreckage or any signs of life.

The missing plane, was carrying 12 military personnel and six civilian passengers, in addition to its crew of three, including Miss Carter as stewardess.

Miss Carter, a native of LaGrande, was a sophomore English major when she entered the University in 1941. While on the campus she lived at Highland house and was social chairman for the inter-co-op council as well as being

DOROTHY HABEL
Chairman of Dad's Day

Ducks and Dads Dine In Sub-Committee Room

Regretting the lack of suitable campus facilities, Dads' Day Chairman Dorothy Habel announced that only sub-committee rooms are available for luncheon seating Saturday. The main banquet room has been sold out.

A public address system will be set up so that those sitting in the sub-committee rooms may hear the proceedings though unable to see them.

The luncheon is being held in the Eugene hotel, since the campus has no location which could be used conveniently for a large luncheon.

"This is another example when a student union building could be called an essential," declared Miss Habel. "If there were a student union at Oregon, all the dads and their sons and daughters could be easily accommodated."

Students' Rights Reasserted In Assembly Congress Discussion

The greatest weakness of the present system of student government is the lack of student voice, asserted Jack Craig, ASUO president, at the assembly at McArthur court. Believing that the proposed student congress will serve to eliminate the ill feeling between Greeks and Independents

Veterans Entitled To Pocket Money

Veterans who have been receiving their subsistence under Public Law 16 will have a little more "Side" money from now on. In an interview with Emmet F. This means two checks, with an increase of either \$65 or \$90 monthly for veterans with service-incurred disabilities.

which is so prominent in most student governmental functions, Craig outlined the plan as it now stands.

Purpose of the assembly was to obtain student opinion on the University congress and reactions to the principles as drawn up by members of the committee which drafted the constitution, he said. According to this new system there would be proportionate representation from each living organization. As an example, Craig explained that a Greek house of from 26 to 50 members would have one representative to the Congress whereas some of the larger dormitories like Susan Campbell, housing more than 76 students, would have two representatives and the still larger units would have three.

New Organizations

"Provision is made for students unaffiliated with any campus living organization in that they may join Independent groups such as Ordes or Yeomen for the purpose of having a voice in the government." Craig also said that new organizations with a minimum of 26 members could be formed in order to obtain representation. Only other requirement governing these groups would be that they must meet at least once a month.

As explained by Craig, the Congress would be representing almost equally both the existing political parties on the campus.
