

**WRIGHT OR WRONG**

(Continued from page eighteen)  
I'd hate to lose my little old discharge button). . . Theta Chi **Bill Gallager** is taking the big leap right after finals saying "I do" for **Gerry Wright** from La Grande. . . certainly hope he doesn't lose too much sleep over exams with a honeymoon coming up right after. . . **Johnny O'Brien** picks his own sweetheart of Sigma Chi and trusts his pin to Alpha Phi **Mary Palmer**. . . ATO's **Chuck Powers** and wife, the former **Dottie Engel**, were down for the weekend, and **Chuck** will be back in school next term. . . Alpha Chi **Maxine Jamieson** anxiously awaiting spring vacation and reunion with **Bob Reed** a Chysy pledge from the University of Washington. . . Some people cry for joy, some walk without visible contact with terra firma, and some people walk out of the phone closet on their hands—that's what Pi Phi's **Betty Busch** did after long distancing to **SAE Jack Caldwell** in New Jersey, who had just arrived after two years overseas. . . **Don Sikes** dropped around to see **Lois Giberson** of the Tridelts and disenchantment is the word after he found **Curt Olson's** SAE pin firmly attached thereto. . . And here is another kind of welcome for one of our boys just returning—according to very reliable reports **Jean Fidler**, also a Tridelt, did a fine job in putting out the mat for sailor **Ward Cummings** Sunday. . . Phi Delt **Ed Devaney** was around for a couple of days and plans on being back in the old institution come spring term. . . It's about time I reminded myself "Gotta keep it clean." . . **Dunc Wimpres**, very sad and gloomy, last Saturday night and for a good reason—**Dunc** was separated from his own house dance and more important from **Peggy Skerry**, Pi Phi who made a quick trip north over the weekend. . . **Peggy's** sympathetic sisters took care to keep the lad from talking to himself, and on Monday morning he was as bright and cheery as ever. . . And I just couldn't continue without handing out a few bouquets to the Sig Eps on that Saturday dance. . . You just couldn't miss the **Chuck Politz** influence

on the whole deal even if you didn't see the same **Chuck** costumed as the Atomic project with a web of interesting looking wires and a light bulb for a snozzola (it really lighted up, too). . . And another bouquet to **Shirley Huff**, as the destruction of Hiroshima, not only for putting up with the antics of Atominded **Politz** but being such a good sport about it and it did take work. . . **Johnny Matthews**, one of the Sig Eps who unfortunately remembers "wright or wrong" of befodewa' was decked out to represent—but then I gotta keep it clean. . . The perennial something or other **Bert Thierolf** who was house prexy of the Sig Eps back then, was around and doing a rather slick job of dancing—too dark and couldn't recognize the chick. . . This might not be the right spot but with the **Robbieurr Warrens-Joe Courtney** engagement ring dazzling my 20-100 eyes, couldn't go on without saying something about the happy people—It'll be a June wedding with big plans for a South American trip for the honeymoon, barring complications. . . The Delts moved their house dance into the Osburn hotel, and the Sigma Nus and Kappa Sigs added additional flavor. . . Delt **Dick Shelton** was with **Maryann Thielen**, and "the Duke" who has an uncanny knack of getting around to the right spots gave out with some info' on the developments—which, incidentally, raised a blush out of the dear-dear girl. . . Another couple of Emeraldites at the deal were **Chuck Degahn** and **Mary Ruth Springer**. . . back on the track with the hope I'm not hurting anyone's feelings with too many Sig Ep names. . . More about costumes—Gamma Phi's **Virginia Woodworth** as the Plague; **Paul Smithrude** as Death; **Treva Torson**, Gamma Phi as Famine and **Wallie Mead** as War which all adds up to the Four Horsemen—**Erling Erlandson**, Sig Ep, and **Margy McNeel**, of the Alpha Phi's, didn't fool anyone by coming to the dance as angels—wings and stuff. . . Cigarette girl **Jan Barry** with **Al Surten** "the Bum." . . Now that the basketball season is over and with a moral victory too, the boys are giving the training rules the bums rush

after a long dry spell. . . And speaking of hoopsters here's an item which came by way of the infirmary—After going to the pill palace for a resupply of cough syrup (gotta beat this liquor shortage somehow) it isn't difficult to understand why **Captain Bob Hamilton** enjoyed his stay up there. . . **Pat Shultz** of the Alpha Gams is all excited over a much-anticipated visit from **Larry** this weekend. . . **June Robbins**, Gamma hall, tripped home for the weekend to see a boy in navy blue. . . Another Gamma **Gal Virginia Grinde** and **Phsy Dave Kempston** took in the Saturday night deal in Beaverville. . . **Jeanne Boquist** spent two weeks trying to decide which Pi Phi was the "type" for big brother **Stan**, ATO, who came down from Portland for the Tau house dance—**Mary Lou Welsh** won and evidently a very happy choice. . . Just couldn't continue without mentioning the Phi Delt "Bucket of Blood" Friday night, and if Pi Phi **Peggy Hauver** has never "swash-buckled" before, she did with **Ed Sahlstrom** at the house dance. . .  
Passing comment—the Phi Delt house had lights only on the second floor which made for a very cozy affair. . . According to **Beta Ken Jackson** and **Wanda Shaw** of Pi Phi's, the Saturday night in the Rose City was a "very quiet one". . . Just seen and not quite new information **Mary Margaret Ellsworth** and **ASUO Prexy Ed Allen**. . . **Theta Chi Don Shanahan** was visiting the campus and redoing old acquaintances—he's still in the service but plans on coming back when "Uncle Sammy" gives him the word. . . **Joe Wicks**, a Theta Chi, and his wife the former **Betty Mack**, also formerly of the "U," dropped 'round for a few days of campus life. . . **Theta Dinty Campbell** just announced her engagement to **Freddie Carlson**. . . from here on any gal mentioned is a Theta. . . **Caralee Lockwood** and **Phsy Jim Longwood** have decided to give it another try after not infrequent squabbles. . . **Mat McEwen** of the Kappa Sigs was back on the campus recently to see **Martha Hoch**. . . and **Becky Fish** and **Jess Shinn** are doing very well, thank you.  
ROUNDUP—  
Well, here it is in all its doubt-

ful glory—the final touch to winter, winter term and winter rain, I hope. . . The super-snooper organization is becoming organized, and Oregonians of the Webfooted species who can stand the sight of this guff will be welcomed back

to "wright or wrong" next term. . . Here faced with the old problem of how to say good-by—anyhow, good luck with the finals—have a happy time during spring vacation—and don't forget to come back next term.
