

YWCA Cabinate Positions Open

All women students interested in applying for positions on the YWCA cabinet are asked to contact Miss Lois Greenwood, executive secretary, before Thursday, March 7. Appointments will be made next week, and new cabinet members will be installed at the beginning of spring term.

Applications may be made for chairmanship of the following committees: membership, publicity, house council, community service, public affairs, Town and Gown, worship, entertainment, Girl Reserves, international affairs, and social affairs.

Newman Club Announce New Meeting Schedule

The meeting time of the Newman club has been changed to 6:30 p.m. on Tuesdays in the annex room of the College Side inn. It has been announced that desserts only will be served during the meeting so that the members can eat at their respective houses before coming to the meeting.

The discussion will last from 6:30 to 7:30 p.m. and the topic Tuesday will be, "Lenten Practices and eBeliefs." The purpose of the club is to familiarize the Catholic student with the living practices of his faith, and through discussion answer questions regarding the position of the Catholic church in the world today.

Southern Positions Available for Graduates

Good jobs are available with the Southern company of Jacksonville, Florida, according to Mrs. Jeanette Hahner, who is in charge of graduate employment at the University.

Mrs. Hahner was informed of the openings by Doug Milne, graduate of '38 and former president of Phi Delta Theta. He stated that a few men are needed as food brokerage businessmen. The applicants must be experienced in the field of food products, preferably wholesale. Persons with retail grocery experience, however, will be considered. These positions pay a salary of \$4800 a year plus commissions.

Any persons interested in a position with the Southern company should get in touch with Mrs. Hahner at the University employment service office.

IMPROVING

(Continued from page twenty-eight) and gentlemen to wear clothes on which the juice will not stain, or some which can stand another cleaning.

Presume now that you are fully prepared to eat a grapefruit—in fact one is setting in front of you; you have all the proper equipment that I told you about and have followed my advice to the last letter. First you pick up a sharp knife in your right hand and start to cut about an inch deep between the skin and the meat while holding the fruit firmly with your left hand. After you have cut around the en-

tire fruit, start cutting between each of the sections. Now the cutting is all done, it wasn't so bad, was it? Of course when you wipe the juice out of your left eye you will be able to see what you have accomplished. Now lay the knife down and pick up your spoon, gently slip it under one section and raise it slowly to your mouth. Delicious, isn't it?

Having the first section safely transported from the dish to your mouth, don't you feel a warm glow of pride? See, I told you it was fool proof.
