

# Burned-Out X-Ray Tube Halts TB Health Check

A twelve hundred dollar tube burned out of the X-ray machine at the health service yesterday afternoon, Mr. Edward Nixon, X-ray technician, announced Tuesday. All appointments will be cancelled until a new tube can be obtained. In the event that Westinghouse in Portland does not have it on hand, one will have to be secured from San Francisco; however, if received, the technicians will have the machine going by this afternoon.

Tuesday's appointments will be taken at the designated time on Thursday, and Wednesday appointments, if the machine is not in operation this afternoon, will be handled on Friday. Since the tube is guaranteed to take 10,000 pictures and has already finished 45,000, it is not too strange that it should play out, Mr. Evers added.

### Only Two Units

There are only two 70 mm. units

## GREEKS SWEEP

(Continued from page one) position, polling 327 votes. Colleen Mariott, Independent nominee, and Marge Weeks, Greek candidate, acquired the Number 3 and 4 spots with 186 and 164 votes respectively. A total of seven hundred twenty-one ballots were cast by the freshmen, with fourteen improperly marked.

All nominees for representative positions on the executive council were voted into office, with Dave Fortmiller and Nick Weddle holding the senior spots, Pat Webber and Dorothy Fowler the junior positions, and Don Pinkerton and Laura Olson the sophomore positions.

### Co-op Board Members

Named to the co-op board as the sophomore representative was Don Dole with 1322 votes, as against the 651 polled for Lewis Knight. Pat Jordan and Gloria Grenfell, Greek candidates for junior representatives on the board, received the office with 1315 and 1266 votes respectively. Ray Johnson polled 837 and Sylvia Mitchell 500 votes.

Figures and vote totals of the election were released late last evening by the official election board.

## STUDENTS APPROVE

(Continued from page one) Partially satisfactory—freshmen men 48.4 per cent, freshmen women 60 per cent; sophomore men 30.2 per cent, sophomore women 63.8 per cent; junior men 66.6 per cent, junior women 35.4 per cent; senior men 25 per cent, senior women 52.7 per cent; graduate men 33.3 per cent; graduate women 50 per cent.

of its kind this side of the Mississippi river, and the other unit has been used mainly for exhibition purposes. This unit is under the auspices of the State Board of Health, and is under the direction of Dr. Edward T. Bloomquist, who is in charge of the Tuberculin Control in the state of Oregon.

His assistants, Mr. Edward Nixon, and Mr. Jack Evers, are both veterans who received their X-ray training in the service. Mrs. Evers travels with the group doing the clerical work.

### Next Stop

The unit had been in operation before April 1, however on that date this trio began to work together. The next stop is Ashland college, Ashland, Oregon.

Outstanding characteristic of this new machine is its capacity for taking 430 pictures on one roll; whereas, a 14x17 X-ray, which is much larger than 70 mm., can only take one. The 14x17 being more accurate, is not as efficient in taking large groups, and if there is any question about 70 mm. it can be taken as a check. This will be done at the health service if there is more proof needed.

### Sent to Portland

All the films are developed by the technicians the same day they are taken, and are immediately sent to the TB hospital in Portland to be read by competent doctors there. Results of the test are sent back within two days after the film has been read. In the case of the University students the results will all be sent back to the health service, and then reports sent to students later.

Monday afternoon from 12 to 5, 179 men were processed, and from 7 to 9 that evening only 14 men were X-rayed. Since they are given for the students' own good, it is important that appointments be kept. Cooperation is the clue to the success of the X-ray unit in Eugene.

## Nazi Propaganda Films Screened In Chapman

Four German propaganda films will be shown in 207 Chapman hall from 7:30 to 10:30 p.m. tonight, entitled "The Triumph of the Will," a documentary film; "Pilots, Gunners, Radio Operators," a short story of the Luftwaffe; "Baptism of Fire," an account of the conquest of Poland; and Newsreels, an assortment of news items issued by the propaganda ministry. These films include a survey of the Nazi propaganda techniques during the six-year period from 1934 to 1940.

# Detroit School Orders Grants To Graduates

Wayne University School of Public Affairs and Social Work in a recent letter to George Hall, veterans' adviser, made announcement of the graduate Volker fellowships offered by the National Training School for Public Service. The fellowships amounts to \$1200 and are outright grants in addition to any rights under the G. I. Bill. Although applications will be considered until September 1, the committee on fellowships urges interested current seniors to submit applications before June 1.

### Agency Training

The National Training School for Public Service, located in Detroit, Michigan, is an independent foundation incorporated to provide means to train young men and women for professional service with citizen agencies concerned with government research bureaus, taxpayer groups, citizen leagues, chambers of commerce, labor unions and community chests; to prepare them for effective participation in community leadership and practical politics; and, for administrative positions in the public service.

### Written Project

Work training will approximate 1085 clock hours during the 12 month period. Students will be assigned initially to the Detroit Bureau of Governmental Research and will be given training when not engaged in class attendance or study.

During the year each student will be expected to complete a written work project in some useful subject which must be of such quality as to be accepted as a thesis, and satisfaction in oral or written examinations at the year's end, will lead to the degree of Master of Public Administration for qualified candidates.

## Student Discussion

A discussion on means of averting depressions will be held tonight at 9 o'clock in Westminster house. The topic will be led by students. Anyone interested in the discussion is invited to attend.

# Beaux-Catchers Start Plans For Ensnaring UO Bachelors

By Gloria Smith

Masculine chatter is reaching a new high this week as all the boys prepare for the big spring term event, the Bachelor Catcher's Mortar Board ball.

Latest chit-chat finds the boys all a-flutter over what to wear, what kind of flowers they prefer, and all the unimportant little trifles men find to discuss about such matters.

### Mother Pays

The coeds, as usual, are keeping the lines busy phoning mother for a little extra cash as cheers come from the male ranks with the thought of a big evening in mind.

One of the highlights at the ball will be the Kwama tapping at 10:30 o'clock. This will take place during intermission.

Decorations will follow a cosmetic theme and free samples of

Revlon lipstick will be distributed to the girls. A huge powder box will be the bandstand for Ted Halllock's orchestra.

Tickets for the dance are being distributed to the girls' living organizations. They cost \$1.20.

### Plots Vary

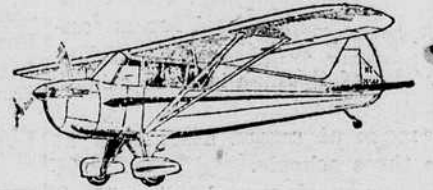

After checking with various reliable sources, it was revealed that the boys should be prepared for anything, for they might find themselves roller skating to the dance or going to dinner piggy-back.

Overheard on the campus yesterday was one of the girls planning a memorable May 25 for her date. "Hot dogs and cokes at the Bird. This is one evening I'll really show him a big time."

With tremendous plans like this underway, the men are assured of an evening to remember.
