Appointment System Goes into Effect in Fall

Cards to Help Alleviate Housing Bottlenecks Before Fall Term

Bond Issue, Contributions of Breakage Fees, To Help Construct \$1,100,000 Student Union

The future of the student union phantasy on the Oregon campus was outlined Monday at a meeting of the newly-elected executive council and other leaders of campus service groups. Dr. Harry K. Newburn, University president, George Hall, assistant dean of men, Will V. Norris, professor of physics, and J. O. Lindstrom, University business manager, were present at the meeting.

The projected union will be twice as large as the present library building, it was learned at the meeting. It will cost an estimated \$1,100,000.

Mr. Lindstrom declared that \$104,000 has been raised thus far in gifts. The rest of the money necessary will be raised by a bond issue of \$600,000, and by soliciting gifts of \$400,000.

Bond Issue

The bond issue cannot be floated, President Newburn pointed out, unless the University can guarantee an enrollment of 4600 to 5000 students. This enrollment is necessary so that there will be a large enough student building fee to form sufficient collateral for the bond issue.

The entire student building fee is pledged from now forward to the student union fund, the president said.

The \$400,000 in gifts will be solicited throughout the state and from alumni groups. Part of the money will be raised through a new plan which has been approved by President Newburn.

Breakage Fees

This plan calls for the issuance of cards to all students so that they may be given the opportunity of signing over their breakage fee to the student union fund. It is expected to raise \$10,000 by this means.

The cafeteria will be the heart of the proposed union, Dr. Norris revealed. The present plans are plan eight and when completed will be plan nine for the building.

The tentative plans will be submitted to the state board next fall and if approved the working plans will be begun. It will take from six to nine months to finish these.

The coupon on page two may be clipped, signed, and turned in to Dean George Hall's office in Johnson hall.

Homecoming Petitions Wanted By Tom Kay

Any student willing to assume the responsibilities of chairman of Homecoming, Oregon's first big fall term event, should submit a petition to Tom Kay, newly-elected ASUO president, before the end of this term.

Kay may be reached for further information at the Phi Delta Theta house, phone 318.

THE CLASS OF '46

Here represented by Elmer Sahlstrom and Mary Telles, will go down in the annals of University history as Oregon's first graduating class in the confusing, insecure, but promising Atomic Era, post-World War II.

Dr. Newburn's Installation to Highlight Traditional Commencement Ceremonies

More than 500 students will be graduated from the University at the 69th annual commencement exercises at 8 p.m. June 16, at McArthur court.

Approximately one-third of the degrees will be for bachelors of arts and two-thirds bachelors of science, with a small percentage of professional degrees, according to Clifford L. Constance, assistant registrar.

Two doctoral degrees, both in education, and from 30 to 40 master's degrees will also be awarded.

Dr. Harry K. Newburn, president of the University, will be formally installed as the eighth president of the University of Oregon at the

commencement exercises by A. R. Watzek, representing the state board of higher education.

The commencement address on "The Uncommon Man" will be given by Dr. Newburn.

The traditional University luncheon will be held at noon Saturday in John Straub hall for graduating seniors, faculty, and alumni. Tickets for guests may be purchased at the Alumni office in Friendly hall for \$1 a plate. Seniors are admitted free of charge.

According to Miss Doris Hack, alumni secretary, the seniors will meet outside the luncheon in their caps and gowns and march in as a group.

Baccalaureate services will be held at 11 a.m. Sunday in McArthur court.

Seniors may obtain instructions on baccalaureate services and the commencement exercises at the Alumni office from June 10 to 16. The office will remain open Saturday afternoon and Sunday morning.

In addition to the three formal graduation events, many other plans have been made for the weekend.

Benefit Tea

Friday afternoon from 3 to 5 a benefit tea for the Pauline Potter Homer collection of beautiful

Registration appointment cards, first step in a reorganized program to prevent some of the bottlenecks of registration, will be given out beginning at 12:30 Saturday in McArthur court.

The cards, which can be completed at writing tables in the hall and filed with the registrar's clerks in the north hall of McArthur, will be used for assignment of housing as well as for preparation of registration material.

The stub is to be kept and presented next fall at or after the time of appointment to secure registration materials. Should the card be lost, a new and later appointment must be made.

Students now on the campus will have the first chance for the appointments which will begin at 8 a.m. September 18. A hundred appointment cards have been printed for each half-hour period of registration week.

Appointments Only

All registration material will be issued only by appointment to old and new, undergraduate, according to Clifford L. Constance, assistant registrar.

After tomorrow appointment cards will be issued through the registrar's office on the second floor of Johnson hall.

According to present estimates all students now enrolled will be able to have appointments for Wednesday or early Thursday of registration week.

Cards must be filed at least two weeks before registration in order that the appointment be valid.

Planning Housing

Constance emphasized that students who do not expect to return to the University should not fill out appointment cards since they will be used as a basis for planning housing and classroom facilities.

Plans are now being made for enrollment of 5000 students at the University next year. The present registration figure of 3801 is the all-time high in the history of the University. The pre-war record of 3705 was set in the fall of 1940.

Housing for such a large body will be a major problem, according to Earl Pallett, executive secretary of the University. However, in addition to present facilities one and possibly two dormitories for

Mill Race Survey Scheduled Soon

A topographical survey of the mill race area has been planned for this summer, Earl M. Pallett, executive secretary of the University, revealed Tuesday. The survey has been proposed so that the state highway department may be assisted in their plans for highway development.

The mill race area is scheduled to be a University park area in the plans of the enlarged University. The campus section will remain open but from Broadway on will be covered over.

The Eugene Woolen mills which has controlled the property has recently released its control to the city of Eugene. The present lack of water in the race is scheduled to be fixed this summer when the break in the revetment is repaired.
