

## New Deal Announced On 'R' Course Work

Veterans registering for "refresher" courses must participate in all class work and activities, with the exception of the final examination and must maintain continued and consistent attendance in class, the academic requirements committee announced after a meeting Sept. 9.

"Refresher" means courses repeating or equivalent to work previously taken, designed to restore the student's active contact with the subject, it was defined.

Also, the committee reported, changes in "R" registration must be made in "the same way as other course changes" which means that changes from refresher to credit status must be made within the first two weeks of a term, and changes from credit to refresher status must be made within the first two weeks of a term.

The above interpretation concerning participation in classes is in accord with the policy of the veteran's administration, the committee announced. In order to insure the enforcement of these requirements and keep faith with the veteran's administration, the faculty has been requested to report promptly to George Hall, assistant dean of men in charge of veteran's affairs, all cases of students registered on a refresher basis who do not attend class regularly or who do not participate in class activities.

Such reports will be turned over by Mr. Hall to the veteran's administration and will, according to existing regulations, presumably result in a curtailment or suspension of subsistence benefits for the veterans so reported.

## Final Figures On Registration Not Available

Registration at the University has proceeded slowly as planned, according to Clifford L. Constance, associate registrar, although University officials are still looking forward toward a final touch that will break the all-time record of 3802 established last spring.

Pre-freshman week estimates by Curtis E. Avery, based upon applications for enrollment, indicate that a figure of 5500 may be reached.

Because of the deliberately slowed registration so that crowded and confused conditions might be avoided, the registrar's office is releasing no figures which might prove misleading in comparison with previous totals.

Students whose registration appointments were from 8 to 12 Wednesday morning began their signing for classes Wednesday afternoon, having received preliminary materials in the morning.

Freshmen students have not yet begun their registration.

At the reception, University officers, faculty members, and leading students will be in a reception line. There will be opportunity to meet and talk with Oregon leaders.

In the reception line will be Dr. Harry K. Newburn, president of the University, and Mrs. Newburn; Dr. Earl M. Pallett, executive secretary, and Mrs. Pallett; the deans of the Oregon schools, department heads, and student officers, publication and honorary heads.

The line will begin receiving at 8 p.m. and there will be an hour to meet the University heads. The music by the "College All-Stars" will begin at 9 p.m. and continue until 12 midnight.

## Ex-Army Huts Rise For Classroom Use

Five quonset huts and two steel craft buildings are being erected on the campus and will be completed in about three weeks, according to Will V. Norris, supervising engineer and professor of physics.

Four quonset huts are located near the law school. Two will be used for class rooms, each building containing two rooms; two will be used for offices of the English and mathematics departments; and one will be a geography laboratory. The hut situated by the art building will be an architectural laboratory.

The two steel craft buildings near the music school are to be practice rooms, each containing ten rooms.

Construction on the buildings was begun about two weeks ago, Mr. Norris said.
