## AVC Air Forum Presents University, Town Speakers

Webfoots will be well represented at Eugene's Forum of the Air tonight at 8:15, when Mrs. Genevieve Turnipseed, director of dormitories and Rex Gunn, University junior in journalism and former editor of Brief magazine, speak their minds on whether or not Lane county should have prohibition.

Mrs. Turnipseed will be backed by Dr. Vance Webster, pastor of the first Baptist church, in her talk for prohibition. Don Motter, owner and operator of the El Capitan club will speak against prohibition with Gunn, from the viewpoint of an operator.

Tonight's meeting, which is the third in a series sponsored by the Eugene chapter of the American Veterans Committee and station KUGN, is open to the public, according to Steve Worth, chairman of the AVC program committee.

Last week's heated meeting on the public housing question may encourage a large crowd to attend, according to AVC officials, who said everyone is welcome to attend this meeting.

A referendum battle is expected when and if, the liquor issue goes on the ballot, according to Worth. He stated that Marion county Drys, were defeated by a narrow margin in a referendum held there recently. County officials expect a very lively campaign, if prohibition comes up on the ballot this fall.

Police authorities are watching the fight with interest and several have expressed the fact that police loads will be greatly increased if such a law takes effect.

Further programs of this type will be heard each week at the same time over station KUGN.

## BA School Class Biggest in History

The school of business administration once more assumes its place as the largest school in the University with an enrollment of 3,092, Clifford L. Constance, assistant registrar, announced Monday. This is the largest single enrollment in one school in University history.

The majority of the students are returning veterans of junior and senior status, representing five years of former college men returning to finish their education, Dr. A. B. Stillman, professor of business administration, said. Dr. Stillman predicts that the swift enrollment increase will continue for three or four years when the average will again be reached.

The post-war period gives promise of being a great era of economic development and these young men and women are determined to prepare themselves to find a place in that expansion. Many are looking for some type of small business of their own," Victor P. Morse, dean of the school said.

Highest individual class registration was 1167 in accounting, the greatest number of students in this course since 1940, Dr. Stillman announced.
