

Endurance Walkathon Waived; Men Spared Traditional Corns

By BOB WHITELEY

Some heel removed the Bunion Derby from the social calendar!

Through no fault of Dick Williams or anyone else connected with the educational activities office, the forced march and sprint will not be held this year for . . . of all things . . . lack of organization.

This annual "meet the people" marathon has been a campus tradition for years, and it is too bad to see it discarded when the campus is busting at the seams with new students. A lot of the undergraduates, especially freshmen, haven't had a chance to look over the current crop of coeds, and vice-versa, and the derby was always the key to success. If the gal didn't remember you it was considered

cricket to reply "Oh, I met you at the derby" . . . to which you had her there.

Of course it is extremely doubtful if some of the older single veterans like Henry Cavanaugh, Frank Bosch and Herb Penny could last the required tour, but it would broaden the scope of their limited acquaintances. Ex-GI's could corner some innocent thing of 17 or so, and in the fifteen minutes allotted to each living organization could at least establish a beachhead, limited as their facilities might be.

It's too bad that we can't show the sore feet, the tired smiles, and the stacks of little black books that are filled on Bunion Derby night. Somehow it just ain't fall term without it. With all the other committees floating around the campus there could have been one to take care of this campus tradition. For the seniors and juniors it won't be missed so much, but for the undergraduates and new students . . . you don't know what you missed.

The British museum has the fossil of a prehistoric elephant that was 14 feet tall.

Special Initiation Held For Jeanne Simmonds

Jeanne Simmonds, Emerald women's page editor, was formally initiated into Phi Theta Upsilon, junior women's service honorary, September 30 at the home of Mrs. Robbieburr Courtney. Miss Simmonds was unable to attend the initiation ceremony held at an earlier date.

Vet Meeting Set For Monday Eve

According to an announcement by Jack Caldwell, of the Eugene chapter of the American Veterans committee, the first membership meeting of the group will be held at 7:30 Monday night in Room 105 Commerce building on the campus. Caldwell said membership will deal with the current AVC campaign—"every vet a voter."

At a meeting of the officers two weeks ago plans were laid for the chapter to be set up on the campus. Paul Deutschmann, chairman of the local AVC chapter, favored a strong campaign at the University for membership on a campus basis.

Plans for a local chapter in Eugene, in conjunction with the campus group have been underway since last spring.

Caldwell urges that every eligible veteran, male or female, including veterans of merchant marine service, attend.

UO Women Give Vets the Lowdown

In a forum held Thursday evening in the veterans' dorm, a group of about 50 veterans had a discussion concerning their attitude toward University women. The women's side was represented by two Oregon women, one greek and the other independent.

Originator of the idea and president of Dorm AA, Bob Lovlien presided at the discussion with the aid of Jens Jensen, secretary. Patricia Spencer, president of Susan Campbell hall, and Dorothy Rasmussen, president of Alpha Delta Pi, represented the independent and greek womn.

Mrs. Golda Wickham, dean of women, Mrs. Genevieve Turnipseed, director of dormitories, and Mrs. Dorothy Fullwater, director of veterans' dormitories were present to answer questions concerning University regulations such as closing hours.

The success of the forum resulted in the men receiving invitations for the coming week to speak at both Susan Campbell hall and the Alpha Delta Pi house on what they expect from University women.

As We See It

(Continued from page two) given time. Our political parties often forget this.

The party that faces the issues with its back to the wind, the party that resorts to name-calling and false-labeling and cheap sensationalism, will fool nobody but itself.

Musicians Lack Practicing Space

Dean Theodore W. Kratt of the music school announced Friday that the south annex practice rooms for the music school should be ready in about a week, but that the north annex will not be ready for occupancy for three or four weeks, owing to the shortage of materials and workers.

Another problem with which Dr. Kratt must deal is the matter of se-

curing pianos for each of the 20 rooms which the annexes will add to the music school.

At present students who have practice rooms in the main music building are sharing their rooms with those who have not yet been assigned practice space.

Geology Trip Canceled

The geology field trip to Collins glacier scheduled for Sunday has been postponed because of bad weather, according to Warren D. Smith, head of the department of geology and geography.
