

Pi Lambda Theta Tells Fall Schedule

Pi Lambda Theta, women's education honorary, has announced its schedule of meetings and activities for the fall term.

Sunday the honorary will give a tea in the alumni lounge of Gerlinger hall to meet possible new members.

A business meeting will be held November 14 to elect new members and to consider other items of business. The speaker will be the dean of women from Oregon State college. The meeting place will be arranged later.

Initiation on December 7 will take place in Gerlinger hall. The time and place of the dinner to be held at the same will be announced later.

To open their activities for the term, Pi Lambda Theta held a business meeting Thursday in the education building to nominate candidates for membership.

Fullback Tim Main, benched for the Washington game, ready to go.

Coach Frank Wickhorst, visibly disappointed with the Bears' performance against Washington, emphasized tackling practice early this week and then concentrated on means of putting power into the running attack.

Washington State	California
Bacoka	LE Cunningham
Niemi	LT Sockolov
Godfrey	LG Dodds
Lazor	C Pieper
Parry	RG Franz
Bond	RT Turner
Kramer	RE Groesema
Eggers	QB Erb
Williams	LH Jensen
Atkins	RH De Porto
George	FB T. Main

Chi Psi Gridders Down

(Continued from page five)

Sigma Alpha Mu came through in the final plays of their third game to edge a scrappy Omega hall team 12-15, 15-2 and 15-13. Omega hall, fielding only five men, and led by fiery Cliff James, kept the Greeks on their toes throughout the contest.

The remaining two contests saw Sigma Nu overpower Veteran's Dorm "C" 15-8 and 15-4, and ATO pull the curtains on an inexperienced Vet's "A" team, smacking them 15-3 and 15-5.

Villard won over Veterans Dorm "D" by forfeit when they failed to appear.

Theft Causes Concern In University Libe

Library officials have expressed concern over the fact that several articles and even pages of the newspapers in the newspaper room, have disappeared. The offenses are becoming serious, for the University library contains one of the most complete collections of Oregon papers published since 1900.

To quote an extract from the Oregon Laws, anyone found guilty of this practice "shall be punished by a fine of not less than \$5, nor more than \$500, or by imprisonment not exceeding six months."

Vet's GPA Over Civilian

Derived from 139 cumulative survey reports of individual cases, taken last week by the campus Veteran's Administration office, the average veteran shows a higher GPA average than the civilian student!

Dr. Leona Tyler, assistant professor of psychology, and head of the veteran's research administration, has completed a survey taken from the psychological tests offered by the VA to GI's in need of help.

Better Grades

"The veterans are getting better grades," said Dr. Tyler, who explains that maturity and motivation caused by the war has been conducive to study.

Test results show that over two-thirds have achieved more than 22 points of grade point average. The average prep deciles were two per cent lower than the freshman average. All college scores show the average veteran to be above average in University work.

Method Explained

Methods in determining these results were taken from high school deciles, the Ohio test scores, and the first term average G. P. A. of all freshmen. Then a group of veterans was singled out, and an individual equation was determined for each of them. Then the G. P. A. which each man actually made was compared with the one which was predicted for him.

The survey was taken to throw light on the question of whether or not the veteran would be behind in college work.

Prediction Made

Results now show that greater achievements for veterans are predicted, according to Dr. Tyler.

Dr. Tyler states that although the general attitude of the veter-

ans was that they were less likely to do well than average, the serious attitude and mature motivation of these men tended to produce college work of better quality than one ordinarily obtains from students directly out of high school.

Announce Name Change

Ginnie Skow, Alpha Gamma Delta, has legally changed her name to Ginnie Dryden. She was adopted by her step-father this summer and has assumed his name.

Bruins Wallop

aspirations, other than for morale-building purposes.

Wedemeyer tossed two touchdown passes of 48 and 23 yards to end Henry Vangieson, but otherwise was well bottled up by the big Bruin forwards.

It is estimated that college enrollments may reach 2,000,000 by 1950.

A-Bomb Pictures Due November 12

Jack De Ment, Portland research scientist, will show motion pictures of the Atom Bomb test which he took at Bikini Atoll this summer while he was a naval research experimenter. They will be shown in Chapman hall, November 12 at eight o'clock. The combined lecture-picture review is being sponsored by the Condon club and the Eugene Mineral society.

Dr. Warren D. Smith, geology department head, said the pictures will show the actual dropping of bombs and their effects. Taken into consideration during the lecture, will be the various scientific aspects which the scientists hope to discover.

Dr. De Ment was engaged in important scientific secret work for the navy during the war.

Dr. De Ment is an authority on

chemicals, minerals, gems, uranium chemistry, physics, and mineralogy in general. He has published scientific articles on photochemistry and technology, ultraviolet light in criminology and military intelligence. He is a graduate of Reed College, Portland.
