 TuThS classes are those meeting TuThS, TuTh, TuS, ThS, and all others not listed above.

Real McCoy on Paint

(Continued from page one)
 a challenge to feminine pride: "Is it true that without cosmetics women are less pleasing to the eye than men?"
 You could feel the women stiffen inwardly at that question. "No," was the decisive answer in most cases. "In fact, women are more pleasing than men," one girl stated. The reporter's next question was calculated to catch this answer: "Then why do women use cosmetics?"

Healthy Look Unwanted
 The best answer was, "So that when they pass people won't say, 'There goes just a big, healthy girl.'" Others, agreeing, were more prosaic. "It's the custom," was typical of these. No one, however, was willing to volunteer an opinion as to how the custom started.

By the time the third question arrived the women were beginning to resent the reporter. "Why do you wear cosmetics?" he asked.

Why the Paint?
 Some honestly replied, "Because everyone else does." Others, confused and panicky, used this answer as a front for some more devious reason. One beauty queen replied coyly, "Because I want to. Without it I'd look ten times as bad as I do now."

To the query, "If other women quit using cosmetics, would you quit too?" all replied yes but one, who declared, "No, except that if everyone quit I probably wouldn't be able to buy any anyway."

By now each woman plainly desired to end the interview; but the reporter hung on. "If women quit using cosmetics, would men like them just as well?"

Four said no; three said yes; two had so much comment that it amounted to complete indecision. The personalities of each of the women showed most plainly on this question.

On the whole, the general opinion seems to be that cosmetics are something men should see, not ask foolish questions about.

Freshman Petitions

 tions will be introduced at the senate meeting in 105 Commerce at 7 tonight.

Official Independent nominees for class offices will be selected by the senate at tonight's meeting.

Lack of recommendation by the election committee will not prevent the nomination of candidate at the senate meeting, Harlan emphasized.

Cougar Cagers

 keteers and frowns to others. Those with the smiles were the newcomers to the team, and those with the frowns had been on the Valley invasion last year.

After a great showing here, WSC fell to OSC like clay pigeons. How well these veterans remembered that, and they were just a bit leary about facing the highly touted and experienced Beavers.

The enthusiasm of the Duck rooters impressed the boys. "Maybe it was just that they were so many of you," Wes Dahl noted, "but the din was sure terrific when Oregon came up on us in those final moments."

"How about the booing of the refs," was fired at them.

"Well, I guess you really had a right to, and if it had been at Pullman, our student body would have done the same thing," mentioned a Cougar.

"The only trouble," broke in another "ith that it burns the refs up. They're only human, and make mistakes, but when booed, they don't see so good for some reason."

Vets Forum

Veteran students who are still registering should follow instructions issued by George L. Hall, assistant dean of men in charge of veterans affairs. New veterans should follow these instructions carefully, Mr. Hall emphasized, in order to insure efficient registration.

1. All veterans registering this term must call at the University Veterans' Office (Basement, Johnson Hall) for a 1946-47 veteran's card. This card will be the veterans' identification and no veteran can proceed with registration without it. Old cards will not be honored.

2. Veterans who are entering the University for the first time or former Oregon students who have not previously attended the University under the servicemen's readjustment act of 1944 (public law 16 or 246) must have a certificate of eligibility and entitlement (veterans' administration form 1953).

If the veteran does not have a certificate of eligibility he should apply immediately to the veterans' administration on their application form No. 1950.

Temporary Card

3. If the veteran does not have his certificate of eligibility in time for registration, it may be possible for him to make arrangements for a temporary letter with the veterans' administration guidance center located in the men's physical education building.

This is a temporary device and will not start subsistence payments, but when presented to the University veterans' office will entitle the veteran to his veteran's card. When his certificate of eligibility arrives he must surrender it at once to the University veterans' office.

4. If the veteran is a transfer and has been attending some other college or university under the servicemen's readjustment act, he must have a supplementary certificate of eligibility or some written evidence of his eligibility which the local veterans' administration can use to issue a temporary letter to the University.

Other Vets

5. Veterans who do not have a certificate of eligibility and who do not have sufficient evidence of eligibility to have the local veterans' administration issue a temporary letter must pay their own tuition and buy their own books and supplies.

Arrangements will be made for refunds of tuition, books, and supplies when the eligibility is established. Receipts must be kept and refunds will be made for all that the government will pay under the servicemen's readjustment act of 1944.

SIDE PATTERN BOB WHITELY

Well, the Tom and Jerry recipes have been put on the bottom of the stack to collect dust until next year, the garbage collectors are swearing at the detinseled trees they have to haul away; the last of the punch board candy has either been eaten or thrown to the dogs, and most of us are wondering "why in God's name did Aunt Aggie give me THAT!" Back to the booby hatch once more with a little matter of grades to sweat out. Here's hoping that Santa brought you what you wanted this Xmas. Most notable wedding was that of Phigee Charlie Scofield (one of the better knowed characters on the campus) and Theta Ruth Chappel. There were more pinnings and de-pinnings . . . engagements and tentative ones than you can fill in Lau's column. He'll print 'em . . . he's got more room anyway. One cute freshman gal complained that Santa got stuck up her chimney, and that she didn't get much for Christmas. I guess her mother didn't tell her . . . ATO Lynn Hamilton got a beautiful gift . . . a gold plated shoe. Alpha Phi Dottie Bruen got married, depleting the old characters club by one. The only ones that are left are "Honest John" Schaefer, "Baldy" McKeivitt and that hardy old perennial Don "Slick" McEachern. (Not to be confused with the flier.) Another clansman, "Wild Bill" Farrell has succumbed to Lohengrin also. The boys from the Lodge have two good men in Freddy Cook and Glenn Walker. Talk of the School of Jurisprudence is Brother Norville's big Four Oh! Law School Prexy-Rexy, Jacques La Coultier' will bestow in a veddy formal ceremony the Most Grand Cross of the Knights of the Paris Garter, third class, for scholastic achievement to Norville. Presentation will be made on the Law School steps when the weather takes a turn for the warmer. Alpha Phi Patsy Maloney has made ye Emerald Sports tycoon's All-IM team. Bill Stratton can sure pick 'em. Roger Wiley, of Howard Hobson's bucket brigade is a swell fella personally, but taking a tip from Droop Pearson, it is our prediction of the week that after Saturday nite's game, Roger will fall asleep at the foul line practicing dropping them in for future jousts on the maple. Watch Oregon get hot during the next conference games. It's been a swell vacation full of ties, socks and handkerchiefs . . . but it's always hard to start another term. Everyone is asking everyone else what they got for Christmas . . . ad infinitum. The only girls that I know are happy are the Miller girls. They get the same thing for Christmas . . . year in and year out.
