

Campus Jobs Now Available

Three vacancies in on-campus secretaryship jobs are now available to spring graduates. Students interested should contact Dean Karl W. Onthank, head of the student placement service, in room 6, Friendly hall.

"These are excellent positions for University women for executive-type secretarial work where the work is interesting and the pay generally good," the dean asserted. He urged that applicants contact his office as soon as possible due to the limited number of such openings on the campus.

Applicants will be judged on general personality and competence and need not be business majors, Onthank pointed out.

An excellent position as an executive secretary to assist the president of an educational institution of considerable importance will be available to graduating men students when the head of the institu-

tion visits the campus this week to interview applicants. It is urged that interested parties contact the placement service immediately to schedule interviews with the visiting official.

Eugene Boy Scout and Girl Scout chapters now have vacancies for young men and women interested in full time executive jobs, the dean revealed.

A complete list of jobs open to graduating students is available at the placement service office.
