

Drive for SU Funds To Be Nationwide

By DONNA KLETZING

The official \$1,000,000 drive to raise the funds necessary for the nearing Student Union building will be launched February 15, Wally Johnson, chairman of the Student Union committee, announced Tuesday.

With the University campus as the activity center, the drive will be conducted from New York City to the Hawaiian Islands, reaching every available UO alumnus to help hit the top. Ernest Haycox, president of the Oregon Alumni association, is in Hawaii at the present time furthering plans for the drive there.

Campaign Widespread

Johnson asks that each Oregon student advertise the need for the building and intense interest on the campus, since the campaign will be carried out and advertised over the state, the United States, and Hawaii.

"Although there is great value in furthering education and international relations, charity starts at home and at the present time the student body has a project on its hands—the Student Union. It will benefit the student body directly and have a close bearing on the future of our University," Johnson said. "The building is strictly for the student body and will not be used by the faculty; therefore, it is your building—the living room of the campus."

Contributions Accepted

Contributions will be accepted by the Student Union at the business office in Johnson hall at any time. Students do not have to wait until February 15, when the drive is officially underway, to donate, but may do so at any convenient time, Johnson said.

More complete plans for the campaign will be released at a later date in the Emerald.

When he joins in the headlong race,
And giving his old inhibitions the boot . . .
Throws a pie in a coed's face.

Don McNeil Acts as 'Hyde' In New Play

" . . . that is what the poets are for. To tell you of all the beautiful things that are happening every day, and that no one sees until they tell them."

And this is Mr. Hyde, an old-fashioned English actor who boards with the Hanson family on San Francisco's Steiner street in the next University theater production, "I Remember Mama," by John van Druten.

Mr. Hyde will be played by Donald P. McNeil, senior drum major, who is a veteran with nearly two years' service as a fighter captain in India and China. McNeil is no novice when it comes to the stage, either. The University theater stage was familiar with his step before the war, when he appeared in "Berkeley Square," "Idiot's Delight," "The Taming of the Shrew," and "Tovarich."

"Mr. Hyde is a nice old man," according to McNeil, "but he just doesn't seem to have money enough to pay his debts. He isn't a 'dead beat,' he just doesn't have the money."

McNeil, whose favorite scene is the family scene at the end of the play, feels that "I Remember Mama" will be well received because it has such a wide appeal.

San Francisco Art on Display

Water Color Works Compose Collection

By BETY STONE

Forty-six water color paintings are now on display at the University's Little Art Gallery in the art building. The exhibit will be open to the public daily from 2 to 5 p.m. until February 7.

Originally assembled by the San Francisco Museum of Art for its eleventh annual exhibition, the paintings came to the University directly from Seattle's Henry gallery at the University of Washington.

Keynote Variety

The keynote of the showing is variety, in both subject matter and approach.

The approach varies from the conservative realism of Morris Logan's "Late Season" to the abstractionism of Dorr Bothwell's "Blue Bone," and from the tight detailed rendering of John L. Howard's "Tidelands" to the free vague rendering of Bob Winston's "T. I."

Striking Contrast

Water color mediums extend from the pure water color of Wedo Georgette's "Summer's Day" to the unique combination of gesso-war in Knud Merrild's "Sentient Reality."

Another striking contrast is that between Victor de Wilde's dull, dark "Wagon Wheel" and Virginia Roberts' colorful, bright "Naked Eye."

Dean Little Interested

Dean S. W. Little of the school of architecture and allied arts took a special interest in the exhibition since water color is one of his favorite mediums. "The layman," he remarked, "is impressed by the freshness of the color, but left short of the fullest appreciation because he does not realize the difficulties that come with the handling of this medium."

In order to exploit the full potentialities of water color, Dean Little explained, the painter must attain complete mastery of his medium

His address will be restricted to members of the law school.
