Research Data Exchange Slated

Science undergraduates and graduates at the university have the opportunity to exchange re-

search data with students from other higher educational institutions at the eleventh annual Oregon students' science conference on April 19 at Reed college, Portland.

The 1947 agenda includes the

readers of papers in the fields of chemistry, physics, biology, and mathematics, but not geology, which is not offered in the Reed curriculum. Abstracts of papers should be forwarded before April 1 to Miss Edith Griffith at the college. Reading of papers will be limited to 15 minutes.
