Ruth Takes Miami Rest

NEW YORK — (AP) — Babe Ruth, recovering steadily from a long illness and serious operation, will fly to Miami, Fla., next Tuesday to fish and rest for two weeks.

He will be accompanied by his wife, his nurse, Miss Sonya Olliker, and a friend, Raymond F. Kilthau, at whose home the former baseball star will stay in Miami.

Miss Olliker said Ruth received permission for the trip from his physicians, who instructed him to spend much of the time out of doors but to avoid crowds.

She said the erstwhile "home run king" was "considerably perked up" by the doctor's decision and that he planned to do a lot of fishing, which ranks second only to golf among his favorite hobbies.

Vets Forum

There are three worries that plague every man.

One is the fear that he will not live long enough to see that his family is cared for. Ordinary life insurance is recognized as the answer to this worry. Another fear is that he will live "too long" and not have enough to live on. An endowment policy can provide for old age.

The third and perhaps the most frightening fear is that he might become disabled so that he can no longer work.

The government has also provided for that last contingency in two ways in National Service Life Insurance. The first is a part of every policy without extra charge to the veteran, known as the premium waiver clause. It provides that if you become totally disabled continuously for a six months' period or longer, future premiums will be paid by the government. No lien will be made against the policy because of premiums waived. In addition, any premium payments made after the established date of disability are refunded.

It is important to remember that total disability as applicable to this clause, is not necessarily the same as that for pension and compensation purposes. For insurance purposes, total disability is defined as any impairment of the mind or body which continuously renders it impossible for the insured to follow any substantially gainful occupation.

Another clause, known as insurance disability income, may be added to your policy for a small extra premium. A physical examination is required to establish evidence of good health. This rider provides that should you become totally and continuously disabled for a period of six months or more, an income of \$5 per month per \$1,000 of insurance will be paid beginning with the first day of the seventh month and continuing as long as the disability exists. Both disability features are effective until your 60th birthday,

but if disability begins before reaching your 60th birthday, the government will not discontinue the benefits for that reason.

Any veteran who has established a war-incurred or war-aggravated disability (other than total in degree) has the same privilege of buying the disability insurance or reinstating or buying new insurance from now until January 1, 1950, as a veteran in perfect health.

Your VA contact office located in Room 114 Physical Education Bldg. can give you more detailed information about your National Service Life Insurance.
