New Premier Named in Italy **Porter Fears Chain Reaction**

ROME, May 16 (AP)—Francesco Saverio Nitti, 79, pre-fascist premier, was designated Friday to try to form a new government to wrestle with Italy's economic problems.

Ill, enfeebled, and almost a cripple, Nitti had only his 27 National Democratic Union adherents in the 555-member constituent assembly, plus the prestige of an elder statesman long regarded as a financial expert to uphold him as he accepted the mandate from Provisional President Enrico de Nicola.

Coalition Wanted

Undermining his position, apparently, was the repeated declaration of Communists and Socialists, second and third largest parties in the assembly, that the new government should be based on results of the elections of last June. By leftist reckoning that would be another Christian Democrat - Socialist - Communist coalition such as Alcide de Gasperi's which broke down Tuesday.

Airplane Bosses Want U.S. Orders

NEW YORK, May 16 (AP)—Prominent aircraft manufacturers will tell congress Saturday that unless government purchases of airplanes are authorized the industry will face bankruptcy.

Supported by high army and navy officials, they will say that they need a guarantee of at least 5000 plane purchases a year by the military services. The indicated number that budget plans for fiscal 1947-48 permit would permit is 1500.

DENVER, May 16 (AP)—Paul Porter, who headed the American economic mission to Greece, asserted Friday night that collapse of that Balkan nation would produce a "chain reaction" which "Would not only shatter the structure of the United Nations but would in addition confront democratic powers with an impossible dilemma."

"This cannot be permitted to happen," Porter said in a speech delivered to the first regional conference of the United Nations Educational, Scientific and Cultural Organization. "America's reesponsibility has been proclaimed to the world. It must now be made effectivee."

Duk Soo Meeting To Greet Soviets

SEOUL, Korea, May 16 (AP)—The Korean "anti-trusteeship society" Friday scheduled a mass meeting on the Duk Soo palace grounds to coincide with the arrival Sunday of a Soviet delegation to renew negotiations for a provisional government of this divided country.

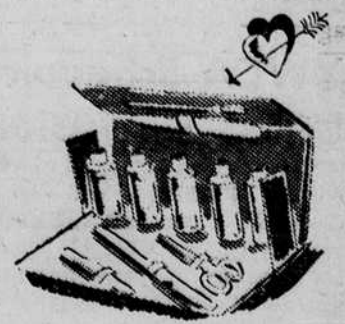

A Soviet advance party of three is due in Seoul Saturday, and the remainder of the 75-man delegation is expected Sunday from the Russian-occupied northern half of Korea.

Talks with American representatives are due to begin Tuesday, as agreed by Foreign Minister Molotov and Secretary of State Marshall.

The actual number of languages computed by officers of the French Academy is put at 2,796.
