

Committee Completes Program

With just four days to go before the opening of Religious Evaluation week Sunday evening, Chairman Barbara Borrevik and her student committee have completed plans for the University function.

Starting Monday noon there will be daily forums at both the YWCA and YMCA with guest speakers and a student chairman handling the program. Forums will also be held in both locations at 3 p.m. every day.

Sceptics at 4 p.m.

At 4 p.m. sceptics hours will take over the limelight in Gerlinger hall. Slated for the hour is Dr. George Hedley.

His topic at the hour will be "God" on Monday and Tuesday, "The Bible" on Wednesday and "Man" on Thursday.

Each living organization that has not been contacted for a speaker at dinner or at a fireside should contact Miss Borrevik at the Delta Gamma house.

Committee Named

Students handling the complete arrangements for the week were named by Miss Borrevik:

Program chairman, Bev. Pitman; classroom engagements, Bobbie Fulmer; breakfasts, Barbara Eagleson; finance, Tom Hazzard; book exhibits, Wes Nicholson; publicity, Al Pietschman; union meeting, Dick Nelson; sceptics hours and forums, Paul McCracken; firesides and dinners, Margaret Rauch; individual conferences, Betty Jean McCourry; and hospitality, Joan Williams and Kelly Hamilton.

"Square meals" got that way because in New England in 1799 the food was prepared in square tins.

Lab Receives New Equipment

An instrument designed to measure disintegration energy of atomic nuclei will operate at the University by mid-winter, Edwin G. Ebbighausen, associate professor of physics, revealed.

The magnetic lens beta ray spectrograph will be the second of its kind in the United States, Ebbighausen declared.

The equipment, the constructoin of which was made possible by a grant of \$850 to the University physics department from the general research fund, is described by Ebbighausen as being capable of considerable precision in the determination of the energy of these disintegration products. The instruments consists in part of 20,000 feet of coiled copper wire which is enclosed in a cylinder of pure iron. Total weight of the machine will be

nearly 1500 pounds, Ebbighausen disclosed.

Ebbighausen and one graduate assistant will use the machine in the conduction of nuclear studies in the physics laboratories in Deady hall.

The radiation laboratory of the University of California, which has a contract for research under the atomic energy commission, will supply the experimenters with radioactive elements.

Oregon Students Win Pepsi Awards

Oregon students George S. Turnbull S. Turnbull Jr., freshman in journalism, and Gordon L. Figge, freshman in chemistry, have been named merit winners of \$50 awards in the 1947 Pepsi-Cola scholarship competition, it was announced today by Dr. Vergil S. Fogdall, assistant dean of men.

The scholarships were awarded on the basis of outstanding scores achieved by th two students on examinations given scholarship applicants in Oregon high schools during the last school year.

Director of the scholarship committee is John M. Stalneker, professor of psychology at Stanford university.

Alumni Schedule Meet

To launch the student union campaign in Linn county, an alumni meeting will be held at 7 p.m., October 28, in the Hub restaurant at Albany.

Les Anderson, alumni secretary, reported that Coach Jim Aiken and President Harry K. Newburn will attend the meeting. Entertainment will be furnished by musicians from the University of Oregon campus.

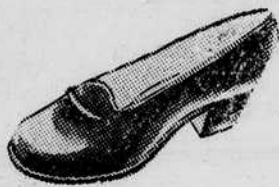

People who know little are usually great talkers.

"Sleepy Time Gal"
Whatta Gal!
Whatta RECORD!

...latest disk by The Three Suns for RCA Victor

BACK in '25 everybody was humming 'bout that "Sleepy Time Gal." Now "Gal" is back in a new and wonderful record.

And here's another favorite with a great record: cool, mild, flavorful Camel cigarettes. More men and more women are smoking Camels than ever before.

Why? The answer is in your "T-Zone" (T for Taste and T for Throat).

Try Camels. Discover for yourself why, with smokers who have tried and compared, Camels are the "choice of experience"!
