

## Onthank Back From California

Karl Onthank, dean of personnel administration, returned Wednesday to the campus following a trip to California during which he attended the annual meeting of the Western Personnel Institute at Pasadena. He is chairman of the academic council, which is composed of representatives from the various cooperating institutions.

The institute is a cooperative of western colleges and universities, and also includes some business and industrial concerns, which aid with finances and provide help in the placement of graduates in business fields.

### Alumni Helps

Onthank also visited a large number of business and industrial concerns while in California, with a view to placement of graduates. He was able to contact numerous alumni from the University of Oregon who are placed in these concerns. According to the dean, these alumni give some of the best help, as they are aware of vacancies and in a position to advise aspirants to jobs.

The dean explained that last year there was little difficulty in placing those graduates who desired this help, but that the trend is toward more difficulty as time goes on. Thus he is looking toward the future in establishing contacts now.

### Committee in Los Angeles

Onthank said that there is at this time an alumni committee in Los Angeles for the purpose of giving advice and help to graduates seeking placement, and that such a committee is being formed in San Francisco.
