

Music School Slates Recital

George Boughten, assistant professor at the school of music, will give a violin recital Thursday night in another of the school's series of faculty recitals. Wade Parks, pianist and faculty member, will accompany him.

Boughten, who studied at the Juilliard school of music in New York City and at Prague with Leopold Kramer, director of the German academy, came to the University from Southern Methodist university in 1945.

The recital will start at 8:15 p.m. in the music school auditorium.

The District of Columbia has 34 miles of railway lines.

There you have it in black and white—the way to avoid many a fatal accident. And this is equally true—it's *not* "safe to be a smart driver!"

The young driver who slouches over the wheel and goes twisting and roaring through traffic for his own self-satisfaction and the adulation of others is as out of date as a 1910 flivver.

More and more, new drivers-to-be are enrolling in driver instruction courses, to learn how to be safe and intelligent drivers. They are taught how to operate and control a car. They become familiar with traffic rules and regulations — and the penalties for violating these established rules of the road. They learn that it is really *smart* to be considerate and courteous to others.

Many communities are making these courses available through their schools today. If your son or daughter is coming of driving age, see to it that they take a driver instruction course. If there is not one available in your town, ask the school or police authorities how you can obtain instruction material.

Make young drivers *safe drivers*—right from the start.
