

Students Slow In Completing Registration

No more than 25 students had completed registering by the end of the second day of advance registration, it was reported yesterday afternoon by the registrar's office. Approximately 2,245 have picked up registration material at Emerald hall.

Indications were that new procedures for enrollment in the college of liberal arts have brought advance registration to a near standstill. The new procedure requires students enrolling in classes in the liberal arts college to wait until March 1, 2, and 3 for conferences with advisers, and until March 4, 5, and 6 before securing departmental approval of class cards.

Registration for classes such as English composition, required in most freshman programs, is prevented by the liberal arts ruling.

Dean Eldon Johnson of the college of liberal arts was not available yesterday for comment as to the reasons for the new procedure.

Students hired by the Co-op as extra help in the expected rush for spring term supplies were said to have been released. Only a very few books have been sold so far, it was reported.

The number of students picking up registration material at Emerald hall is still behind schedule, Registrar C. E. Avery stated. Normally, the registrar's office expects heavier registration on Tuesday, when fewer classes are held.

Material will be available at Emerald hall through Saturday noon. Advance registration will continue through March 6.
