

## Scientific Aids Offered Ducks Petitioners

Applications are being accepted by the board of civil service examiners for filling students positions in the fields of engineering, mathematics, metallurgy, chemistry, physics, and meteorology.

This examination offers to college juniors the opportunity of participating in special training programs at the national bureau of standards, the naval research laboratory, and the naval ordnance laboratory. Satisfactory completion of the training course may lead to appointment to positions in the professional service for which the appointees are qualified.

Salary for student aid positions is \$2,394 a year. To qualify, applicants must pass a written test and they must have credit equivalent to at least three years of college study in one of the above subject matter fields.

Applications will be accepted from students who expect to complete the required study by June 30, 1948. Age limits for student aids, 18 to 35, are waived for persons entitled to veteran preference.

Detailed information may be secured from the executive secretary, board of United States civil service examiners for scientific and technical naval command, Building 37, naval research laboratory, Washington 20, D. C.

## Army Men Explain Training Program

The benefits and opportunities available in Aviation Cadet Pilot training will be explained today by a special Air Force traveling team, under the direction of Major Robert E. Curtis, to any interested young men. Students and area residents may contact the team at room 118 PE building, between 9 and 4:30.

To be eligible, aviation cadets must be from 20 to 26½ years of age, unmarried, with two or more years of college or the equivalent, in good health, and a sound physique. Training in Texas and Arizona or Louisiana will be given to men who qualify, and all cadets will be paid \$75 per month, including food, clothing, housing, medical and dental care.

Cadets graduating will be com-

## Side Patter

(Continued from page two)

Chesterfields this week are Phil Dana and Beay Stevens. Pick them up in the Side, and everything will be peachy fuzzy.

And so with fond adieu we bid a sad goodbye to the land of enchantment located in the heart of the flooded Willamette valley and jump back into the reality of the cruel world. If you live through finals, come to the Side for a hot cup of Swedish grog, a Welsh Coal Miner's Nightmare, and a swift dose of arsenic.

## Tax Increase Misses Theater

Prices for patrons of the University Theater guild productions will not feel the tax raise until next season, according to Horace W. Robinson, director of the guild.

As a result of a law passed by the Eugene city council, a three per cent tax on all admission for amusement purposes in Eugene has been levied to become effective March 25.

"We are opposed to the tax," Robinson said. "It has been levied under a misconception of the theater as a revenue producing agency, but we must conform to the law according to its interpretation. Because it wouldn't be fair to change policy on the public in the middle of the season, prices for the forthcoming production, 'The Dover Road' will not be effected."

missioned second lieutenants in the air force reserve plus opportunities for a regular air force commission, and are paid \$336 per month. In addition, they will receive \$500 for each year of active duty.
